## Life Path

### Ascendant In Aquarius

PROFESSIONAL - LIFE-PATH: Future vision

It is difficult for you to find a foothold that really satisfies you in the professional sphere, and you may feel that professional options are boring or uninspiring. You are a very socially-oriented person with a driving vision for your fellow human beings. You are best suited to work with a team or group of people. You would find even greater satisfaction in international ventures, as you thrive on contact with people from exotic environments. You are well-suited for work in humanitarian areas. You may also have an interest in, and talent for, New Age projects. By working in an unconventional area you find the necessary space to demonstrate your flamboyant and untraditional nature. You are a strong-principled person, and your work may be shaped by your political convictions.

PERSONAL - LIFE-PATH: Future vision

You may well have had an unusual upbringing which will have brought out the outsider in your nature. You are a friendly person, extremely curious about other people, yet you may often feel that you do not belong. You seek out groups to be with and are extremely loyal, but may be disappointed by your friends. It is difficult for you to understand that the bonds of friendship do not supersede those of family or marriage. In your own intimate relationships, partners find you friendly but cool and distant. You have very little personal ego, and have difficulty understanding what you see as other people's self-obsession. You are stubborn, particularly as regards your opinions. However you are an original and fascinating person. You can strike out on a unique course in life and pave a way into the future which can be an inspiring example for future generations.

### Ascendant Sextile Sun

This aspect is extremely powerful in your horoscope; every action you take will be coloured by this energy.

When reading the following text, please bear in mind that you will for the most part experience only the positive effects of this aspect. You are particularly stimulated to learn and communicate, as regards the matters concerned.

PROFESSIONAL - LIFE PATH: I, myself, me

Whether you would prefer to have a low profile or not, you will often dominate your surroundings through the force of your personality. Professionally you strive to do your very best - for success is a matter of honour for you. You have a magnanimous disposition, and are generous in your dealings with others. Creative work and self-expression must be an important element in your professional life. You stand on your pride too much.

PERSONAL - LIFE PATH: I, myself, me

You have a radiant personality, with a touch of self-importance. You take yourself - and the impression you make on others - very seriously indeed. Some people may consider you self-centred. You tend at least to be the centre of attention, and although you invest all of yourself when you relate to others, you give your own personal development needs priority. You have plenty of surplus energy, and your playful nature can make you a figurehead for young people.

### Ascendant Sextile Mercury

This aspect is of medium strength and its influence will often be felt, though not acutely.

The sextile aspect is favourable, and stimulates your capacity to

learn from experience. You can expect the negative effects to be minimal.

PROFESSIONAL - LIFE PATH: The messenger

You are a person of many talents, chiefly in the field of information and communication. Meeting people and creating contacts are a part of your professional life-style - you have a message to deliver, and you do so in a flurry of activity. Intelligent and informed, you keep yourself up-to-date on all the latest developments.

PERSONAL - LIFE PATH: The messenger

You are easy to make contact with, and always willing to exchange the time of day with anyone you meet. Easily distracted, you can find yourself getting involved in many things at the same time - but then you hate to be bored. You give the impression of being a person on the move. Being gregarious and talkative, you are an excellent catalyst for getting people together. You fascinate people with your ideas.

### Saturn In Scorpio

PROFESSIONAL - SELF-RELIANCE: Reconstruction

Saturn was in Scorpio in the years 1923-26, 1953-56 and 1982-85. At this time there was great concern about threats, whether social, economic or military, and a deep interest in hidden issues, power and corruption. There was an element of paranoia in society. Inasmuch as you express this influence in your choice of career, you will be capable of dealing with power at the highest level, and may have a talent for rooting out corrupt or inefficient practices in society. On the other hand you may feel that you are subject to unfair misuse of power yourself, and this can especially manifest itself in your contact with authority figures or institutions in society. So you may find yourself on either side of the balance of power. Should you deal with finance, then you will work at some point in some rationalisation process, or have to deal with economic loss or bankruptcy. You may be involved in secretive institutions, or you could work on a deeper psychological level in your career.

PERSONAL - SELF-RELIANCE: Reconstruction

You were born at a time when there was a heaviness in the collective spirit, with many irrational fears, and you have probably integrated this spirit into your own emotional nature. There is a sense of controlled power and deep emotional discipline. Intimate emotional relationships are extremely important to you, but you may have great difficulty lowering the floodgates of your own emotions. Fear of emotional loss drives you to exert an almost hypnotic control in intimate partnership. You are both driven to investigate the deepest emotional motivations of others, and rather paranoid about revealing your own. There is a particular fascination with sexual taboos, and a great need to overcome your own sexual blockages. It is important for you to replace fear with trust, and to cultivate a relaxed emotional attitude instead of exhausting yourself trying to control the uncontrollable.

### Saturn In 9th House

PROFESSIONAL - SELF-RELIANCE: Intellectual training

During the course of your life you overcome a feeling of inadequacy as regards your intelligence and judgement, and through concentration and training - and perhaps a commitment to higher education - you can become a kind of intellectual authority in one field or another. Your ability to draw wise conclusions from experience, and your careful analysis of the truth, may give you a talent in an area which requires sober analysis and judgement. You have the capacity for serious study, and you are able to show other people a path of understanding

through a philosophical system or set of rules. You are very conscious of your place in the intellectual hierarchy and a little too inflexible in your opinions or understanding of what truth is.

**PERSONAL - SELF-RELIANCE:** Intellectual training  
Gaining intelligence and understanding has a high priority for you. As a young person you were probably exposed to parents or teachers who had strong and rather inflexible opinions and you may have had difficulty because of some kind of orthodox dogmatism. Hindrances may have arisen as regards the pursuit of a further education. Ultimately a lack of intellectual confidence drives you to improve your mind, so that you become able to define your own beliefs about the meaning of your existence. You are attracted to some kind of spiritual system or hierarchy, and have a tendency to believe in a strict set of moral rules connected with spiritual growth. You have the capacity to study long and hard - you do not expect the way to understanding to be easy. Special challenges may be connected with abroad, or a spiritual teacher who demands personal discipline. It pays for you to be more receptive to the opinions of others, and less defensive about your own convictions.

### Uranus In Leo Retrograde

Because of the relative position of this planet in relationship to the Sun and Earth, it appears to be moving backwards. This may make you more thoughtful or introverted in the area concerned.

**COLLECTIVE - ORIGINALITY:** Collective identity  
Uranus takes 84 years to orbit the Sun and is in this sign for 7 years, representing a collective influence on a whole generation. It shows how you are most influenced by revolutionary attitudes in society. When the Ascendant is in Aquarius this influence will be expressed in a more personal way.  
Uranus went through this sign in the years 1956 to 1962, and will do so again from 2040 to 2046. These eras usher in radical changes in society through the influence of particular individuals, who somehow touch a collective chord in society. These changes are most apparent in the field of entertainment with the collective identification of hero and heroine figures. Style and fashion make a big impact on the collective psyche of the time.  
Inasmuch as you reflect this collective influence in a personal way, there will be an unusual aspect of your identity or personal style which makes an impact on your environment. You will accentuate the importance of being an individual and doing your own thing, and this will involve considerable personal freedom. You believe in your right to have enjoyment in your life, and will react violently to any restriction on your freedom to be yourself.

### Uranus In 6th House

**PROFESSIONAL - ORIGINALITY:** Inspiring daily life  
You have some unusual talents which can bring advantages in your working life. You thrive in an unusual environment - for example in an international company, or working abroad. You may have a talent for an untraditional kind of job, perhaps utilising modern technology or some unconventional talent. There is something of an inventor in you. You are not suited to monotonous work. Everyday should bring something new. You function best when you work amongst exciting people, or when stimulated powerfully by others on a mental level. Job changes come suddenly and unexpectedly - often after a period of restlessness or boredom. It is important for you to have a modern or enlightened working environment, where everyone is treated equally - if these criteria are not fulfilled you will be afflicted by a sense of alienation and may choose to create an individual career of your own.

**PERSONAL - ORIGINALITY:** Inspiring daily life  
In partnership matters you do not like to be tied down by household tasks. You will often feel that the practical demands of a relationship are a restriction on your freedom. Menial tasks bore you. It is better for you to invest in modern household equipment or hire a house-help than to waste your time with monotonous and repetitive work at home. You are at your best when you can apply your talent for innovation to make changes in the way things function at home. Amongst your interests there can be some unusual talents in matters of health. You can acquire a knowledge of the effect of electrical impulses or electromagnetic energy on the body. You may even wish to work with health in an untraditional way. If you have health problems they can arise suddenly and be strange in nature. You respond well to alternative healing methods.

## Identity

### Sun In Sagittarius

**PROFESSIONAL - IDENTITY:** Inspire with your visions  
The search for meaning and understanding is a major drive in your life. This you can achieve through philosophical interests, travel or study, and it is important for you to have a career which allows you to expand in at least one of these areas. You need to feel that you have freedom in your job, and you cannot bear monotony. You are a passionate believer in causes where fairness and justice need to be done - and your strong opinions and direct manner will occasionally get you into trouble. Diplomacy is not your strong side. Generally, though, you have a persuasive talent and your insight and convictions will win respect. You are not the type to settle into any one job for a long period of time, unless it offers opportunities for constant expansion and widening of your horizons. You desire to be appreciated professionally for your good judgement, positive attitude and ability to envision the future.

**PERSONAL - IDENTITY:** Inspire with your visions  
You are considerably inspired by nobility of the mind, and intellectual achievement. Your personal visions about the future can be very significant for the people you come into contact with. Some of the great turning points in your life come when you discover new mental frontiers which force you to discard old beliefs which you identified strongly with. You do have a tendency to pontificate about what you believe to be true. Experience shows, however, that you rarely stay in the same place as regards beliefs, and that truth is relative to your discoveries at any one time. Relationships would therefore benefit, if you were less forceful and argumentative and more open to the point of view of your partner. You may feel it is your duty to inform people of what you regard to be the truth, but experience will teach you that people listen best when you wait to be asked for your views.

### Sun In 10th House

**PROFESSIONAL - IDENTITY:** Professional manifestation  
You are capable of having a high professional profile - indeed society demands that you become deeply personally involved in your career. You are a natural leader in your field and it is an advantage for you to strive to become known. More than most you define yourself through what you do, and through how other people judge what you do. You are suited to a profession in which you either are self-employed or employ others. Should you find yourself working in a subordinate position, you may have differences of opinion with your employers. They will think you are arrogant, you will think you can do better than them! Successful leaders become role models for you.

**PERSONAL - IDENTITY: Professional manifestation**

You are extremely involved in issues of self-esteem and feel that your own self-worth must be measured by your achievements in society. This attitude stems from the influence of a parent - probably your father - who imbued in you ideas of respect and duty to society. Attaining goals, then, is the strongest motivational factor in your life. The problems is that you tend to move the goalposts in a constant spiral of striving. Perhaps it would be wise to relax more and enjoy the fruits of your labours? Because you identify so strongly with your professional position - you are what you do - you may have difficulty being spontaneous and natural on an intimate or emotional level. You also have a deep need to be respected and appreciated by your partner. Being known or respected makes you take yourself too seriously.

**Sun Opposition Moon**

It may be difficult for you to discern the influence of this combination of planetary energies; it is weak and may be outweighed by stronger influences.

You will have to work hard to attain the beneficial results of this aspect. Partnership matters are central for your gaining an understanding of the principles involved and integrating them in your nature.

**PROFESSIONAL - IDENTITY: Conscious/Unconscious**

As these two planets represent the basic building blocks of character, your success will very much depend on the nature of the aspect between the Sun and Moon, and other planetary influences. The main issue is your ability to assert yourself without unconsciously distorting the reactions you receive from others. Harmonious contacts between the Sun and Moon indicate a talent for nurturing and strengthening others through the capacity to understand them, as well as giving a wealth of creative talents in many areas. Disharmonious aspects give a tendency to misinterpret or distort the reactions of people who have influence in the world. Emotional conflict with people in authority can undermine progress in business life, and this will be connected with some immaturity on your part. Often the problem will lie in environmental instability in which your domestic situation is at odds with professional visions. At the conjunction - or the New Moon - there will be a strong self-sufficiency and a strongly integrated character, but it may be difficult for you to get an objective picture of yourself. This would be a definite disadvantage if you have to deal with others on an emotional level.

As you mature you gain greater insight into the role the unconscious plays in human behaviour, and in some cases this can lead to work of a caring nature relating to the emotional make up of others.

**PERSONAL - IDENTITY: Conscious/Unconscious**

As the Moon waxes and wanes, it goes through different phases showing its relationship to the Sun. Each phase has a specific effect on personal character. At the New Moon - or conjunction - there is a strong self-awareness, but some frustration as regards getting on in life. Past bonds have a strong hold on the personal nature and will often stand in the way of progress. In relationships the conjunction can make it difficult to gauge one's effect on the partner, and although there is a strong sensitivity, it is felt very subjectively. Often the bond to the parents is rather unique with this aspect, and the family life is characterised by an insular self-sufficiency. The father may exhibit a strong emotional or caring nature, and the mother may well have strong independent characteristics.

The full moon - or opposition - on the other hand gives almost too much objectivity, and emotional interactions in relationships are

quite dominant. There is a tendency to project behaviour and attitudes on the partner, which in reality belong to oneself. This may be due to an upbringing in which there was a strong contrast between the parents. If so, you will have identified strongly with one parent to the detriment of the other.

The half moon - or square aspect - also bring conflict between the identity and emotional needs. As you mature it becomes essential to control inappropriate emotional reactions which relate back to frustration regarding your interpretation of parental conflict.

When the Sun and Moon have a harmonious relationship to each other, through the trine or sextile aspect, there is much greater ease in expressing feelings and ascertaining one's effect on others. Whatever the aspect, you will have a very strong emotional nature, and feel an enormous pull from the past. You will have well-developed instincts and a talents for delving in to the dark realms of the unconscious. Generally speaking with all aspects between the Sun and the Moon it pays to exert the influence of the will on your emotions, so that you gain greater consciousness of the deep-seated emotional programmes which still unconsciously affect your behaviour.

**Sun Conjunction Mercury**

This aspect is extremely powerful in your horoscope; every action you take will be coloured by this energy.

This connection between two planets shows a fusion of two principles for good or ill. You integrate quite different energies and express them as one process. This manifests as a strong personal character trait.

**PROFESSIONAL - IDENTITY: Subjectivity**

As Mercury is never more than 28 degrees from the Sun, the only aspect possible between them is the conjunction - the closer they are together, the stronger this aspect will be. There is a great mental talent and a restless desire to learn more and gain experience. You would thrive in a job which gave you the opportunity to be on the move and meet people, as communication is definitely one of your strong points. You hate to be stuck in any job, and you need constant mental stimulation.

This can of course lead to a number of radical job changes. Alternatively you can satisfy your need for stimulation by going on courses or undertaking study projects. You have good teaching abilities and would prosper in any position in which you had to get a message across. Your strong points are your versatility, curiosity and a youthful enthusiasm. Your weaknesses are connected with restlessness and lack of concentration - and a tendency to be very subjective in your evaluations. You are overconcerned with making an impression and like to have the last word. You hate being wrong, and have difficulty admitting it when you are.

**PERSONAL - IDENTITY: Subjectivity**

Intelligence and communication are important issues for you in your personal relationships. You identify strongly with what you say, and it can be a blow to your personal pride if you are ignored or misunderstood. As a result you tend to be forceful in your opinions and at times unreceptive to what other people say and think. You are overly subjective, and you can spend a great deal of time running an inner dialogue in which you talk to yourself. By nature you exude a youthful spirit and a certain naiveté, or immaturity. People might call you flighty - even a Peter Pan figure. Unless other influences in the horoscope contradict this, you may lack staying power and skip from one relationship to another. You need the stimulation of travel and contact with interesting people to keep you occupied and burn off all your surplus energy. Your father may have been an intelligent or talkative person, with a nervous or skittish nature. You will judge

the relationship you had with him through your ability to understand him and establish mental contact, and subsequently you judge yourself through your ability to establish mental contact with others.

## Sun Square Jupiter

It may be difficult for you to discern the influence of this combination of planetary energies, as it has only a mild effect in your chart.

There will be great difficulty in integrating these two planetary influences, and the promised harmonious results will only arise after you have expended time and effort.

### PROFESSIONAL - IDENTITY: Insight

One of your greatest professional assets is your optimism and ability to envision and empower the future. You have the capacity to occupy a high profile position in which your charisma and personal identity play a leading role. As you are strongly motivated to acquire insight in your life, and rather philosophically minded, you would function well as an advisor, counsellor or simply as a leader figure, whom people turn to for advice and a sense of direction. It is essential that your profession offers you the opportunity for growth. You need wide horizons and you will probably find that you travel a lot in your work. You are cosmopolitan by nature, and enjoy the cultural aspect of your work. You have very strong convictions indeed, and may be rather morally high-minded. This side of your character can lead to ideological confrontations with influential people. You have great difficulty in admitting your mistakes, and although you have vision and prophetic sense, you can be wildly optimistic about the future, and are often to be seen chasing dreams of prosperity. Inasmuch as vision is necessary for success, you will generally reach your goals, but greater attention to planning, more realism and more patience would help you consolidate your position.

### PERSONAL - IDENTITY: Insight

You are an inspiring person with a wonderful capacity for positive thinking and looking on the bright side. You are a seeker of wisdom, and this search will lead to many studies and many travels to widen your intellectual horizons. During the course of your life, you acquire a set of opinions and personal convictions which play rather a dominating role in your environment. Gaining understanding of the meaning of your own life is important, and you identify strongly with the conclusions you come to. You have a great need to find a mentor or wise person who can instruct you, but few people will have the capacity to impress you on an intellectual or spiritual level. If you do not cultivate a sensitivity to the ideas of others you can become opinionated and arrogant. Others can find you mentally dominating or over-forceful in discussions. There is more dignity in giving your opinion only when asked, than in foisting your beliefs on others. Generally however, you will create a good impression because of the wide span of your mind, and a tolerant attitude towards others.

### IDENTITY - IDENTITY: Insight

It is very likely that your father was a man of strong beliefs and convictions. These convictions may have been cultural, political or religious, and you will have had trouble as a child in standing up to the intellectual challenges your father set you. At worst he will have pontificated a lot and have been very unreceptive to argument. At best he will have been a jovial, humorous and warm figure, who really encouraged you to develop intellectually. He may have been a well-travelled man, and expanded your horizons with stories from foreign climes. You may have felt put in the shade by his larger than life character when young, but this will have inspired you to live up to some grand vision of yourself later

in life.

Factors in your childhood have given you a hunger for knowledge and understanding which can be quite desperate at times. You are concerned about being able to define your identity and explore the boundaries of your being. With this aspect there can often be some anxiety about establishing the circumference of your identity, and manic phases can arise in which the boundary overflows into other people, nature, the cosmos. Often some kind of religious philosophy is important, because you discover that your ego alone is not sufficient in itself to explain the mystery of existence.

## Sun Conjunction Saturn

It may be difficult for you to discern the influence of this combination of planetary energies; it is weak and may be outweighed by stronger influences.

This conjunction shows a fusion of energies in you. Both the positive and negative sides of this aspect will be an integral part of your character.

### PROFESSIONAL - IDENTITY: Winning self-esteem

You are a hard-working and ambitious person with a strong drive to prove yourself in society. There may however be difficulties with authorities, despite your desire to live up to the expectations of society. The first 30 years of your life will bring a great deal of obstacles to success, but you will learn important lessons and ultimately develop a self-sufficiency and discipline which lays the foundation for success later in life. It is important for you to overcome negativity or pessimism concerning the future. Not all success is won by hard work alone. You are often more motivated by the fear of failure than the promise of reward, and this can hold you back from realising your full potential. If all goes well you will acquire more and more responsibility during the course of your life - and you deserve it. You are conscientious and take your responsibilities seriously. You are the kind of person other people can rely on. You would rather be the power behind the throne, than have a high profile yourself. Remember to take time to enjoy the fruits of your efforts, instead of continuously driving yourself onwards.

### PERSONAL - IDENTITY: Winning self-esteem

You are a rather formal person who takes life seriously. Childhood experiences - especially the relationship with your father - has undermined your self-confidence and made you reluctant to stick your neck out. You are more likely to bury your "talent" than gamble with it. You have a strong need for approval, but as a child love and approval was always conditional on your performance. You have been more appreciated for what you did, than for who you are. Later in life you tend to judge yourself harshly, and you have a bad conscience about enjoying life and relaxing. You tend to be too dismissive when offered love and affection, and rather severe when giving it. There may be authoritarian tendencies and a lack of flexibility as regards rules. Nevertheless, you are a person who can be trusted. You have high principles, and as you do not indulge expectations of the easy life, you work hard to build up a secure structure in life for those you hold dear.

### IDENTITY - IDENTITY: Winning self-esteem

Your relationship to your father was probably strongly affected by hard discipline and high expectations. The bond may be strong, but characterised by your efforts to win his approval. If you got good grades at school, your father will have expected even better. Naturally as you grow up you integrate a severe sense of values which is a strong motivational factor for achievement. You become your own harshest judge.

Actually you are born with the need to create a strong internal structure and set of rules for your life - you evoke behaviour in your parents so that this need is fulfilled. You expect to be disciplined. Furthermore you are unreceptive to praise, so that when people come with favourable comments on your work and deeds, you have the tendency to play down your efforts in a dismissive manner. People learn that you do not want recognition, even if you think you do. The only kind of recognition and acceptance that really works for you is your own - yet as you judge yourself hard, this rarely comes. You are, then, your own master, so why not try giving yourself some rewards. Internal praise has a very healing effect on you, and this is a question of confronting the inner voice of guilt and enlisting its support to make you strong.

## Sun Trine Uranus

Though not especially strong, you will be able to feel the influence of this aspect under many circumstances.

Please bear in mind that the contact between these planets is harmonious, which means that you will rarely be troubled by their negative influences. They represent a resource you can draw from.

**PROFESSIONAL - IDENTITY:** Consciousness change  
Your chief contribution to society is your ability to entertain original ideas and experiment with new ways of doing things. You need to work in an independent position or with a company which respects and encourages your originality. You quickly become bored if you have to perform the same functions day in day out. You need to meet people - and you thrive on unusual challenges, especially if they involve travel and dealing with radically different cultures. You may travel long distances to exotic countries, or work with advanced technology. Alternatively you will go your own unique direction in your professional life, developing unconventional talents - perhaps connected with consciousness development in one form or another. You are not one to stand on ceremony either - you hate stuffy protocol and thrive on contacts with young and old, rich and poor. It is your job to pave the way to the future with new ideas and an original life-style.

**PERSONAL - IDENTITY:** Consciousness change  
You are a true individual and other people may regard you as rather eccentric. You like to express yourself through actions which surprise others in some way, and you enjoy embracing ideas which are provocative. You do not like to feel tied down, and function best in a relationship which gives you a lot of personal freedom. Often your friends will seem more important than your family, and as a result partners can feel that they are unable to establish an intimate contact with you, though you are usually quite open and fair-minded. During certain periods of your life you will choose to change your direction radically. These personal revolutions are often accompanied by new interests of an untraditional nature - for example astrology, electronics and technical matters, or mental powers. You have an electric and rather unstable aura around you, and often your nerves are on edge. People feel uncertain around you as they feel that anything can happen, so you would be wise to put them at ease about your intentions.

**IDENTITY - IDENTITY:** Consciousness change  
Your father was probably unusual in some way, and he will have brought a sense of unpredictability into your life - perhaps because he travelled a lot, perhaps because he was an outsider in some way, or simply because he acted irrationally so that you never quite knew what he would do next. You may have had a friendly - not fatherly - relationship to him, or you may have felt

totally alienated. Whatever, there was an aura of tension or excitement in your relationship.

Later in life this evokes a need for you to develop unconventional habits and be different in some way. Moreover, you can adopt a rather distant attitude to your feelings. At its most extreme, there can be a lack of grounding with very little sense of contact with the physical body, and far too much mental activity. Success in your life depends on you coming down to earth with your visions. Factors in your upbringing can lead you to feel that you are an outsider. Actually you would prefer not to run with the crowd, so why worry about being different? This feeling can be utilised positively by helping people who feel they are outsiders.

## Sun Square Pluto

It may be difficult for you to discern the influence of this combination of planetary energies, as it has only a mild effect in your chart.

There will be great difficulty in integrating these two planetary influences, and the promised harmonious results will only arise after you have expended time and effort.

**PROFESSIONAL - IDENTITY:** Transformation of identity  
It is important for you to make a strong impression on people, and you invest a lot of energy in this - more than you are aware of. Much can be gained by toning down your personal energy. You are suited to positions requiring the use of power and psychological insight. Whatever you do, you like to be deeply - sometimes fanatically - involved. This may often lead to battles of will, and you tend to win, basically because you cannot contemplate personal defeat. More flexibility would actually benefit you and help you avoid tiring power games. Personal power is a natural asset - as you will discover after a number of significant personal crises which lead to a revaluation of your role. These crises are centred around achievement at all costs, or fanatical attachment to a particular role which outlives its meaning for you. When you learn to tone down your sensitivity about self-esteem, and invest your considerable willpower into projects which really mean something to you, and to others, you can achieve success. You may have a talent for psychology or dealing with the powers of the unconscious.

**PERSONAL - IDENTITY:** Transformation of identity  
Early personal experiences have made you sensitive about your identity, and anxious about self-esteem. However this means, paradoxically, that you often overwhelm others with your presence. Thus you tend to be a dominating figure in intimate relationships. You need a partner who is not superficial and who shares your intense approach to life. To achieve harmony here you should relax instead of asserting yourself, otherwise relationships will become very exhausting. It is important to realise that power battles are related to inner fears about your identity. Women with this influence will often be attracted to a dominating man, only to find that he does not match her own strength which was acquiring through trying times in childhood. More intimacy can be achieved by daring to show vulnerability.

**IDENTITY - IDENTITY:** Transformation of identity  
It has not been possible for you to cement any truly deep bond to your father. Perhaps he disappeared when you were young, and a stepfather took his place, perhaps he was at home but unreachable or distant in some way. Because intimacy was impossible to attain, you feel a inner chasm of emptiness connected with your identity. You have felt that you were not recognised as an individual - hence your deep need to manifest yourself strongly later in life. Although some of the fault almost certainly lies with your father,

you have a tendency to compound the problem by withdrawing yourself totally when you feel ignored or unappreciated. This was your way of protecting yourself psychologically as a child, but in the long run these tactics lead to a profound alienation. The enormous efforts you make to gain self-acceptance ultimately lead to great personal power and psychological insight. Psychic or intuitive powers can enrich your life and give strength to others.

## Sun Conjunction MC

This aspect is extremely powerful in your horoscope; it will dominate many areas of your life. This conjunction shows a fusion of energies in you. Both the positive and negative sides of this aspect will be an integral part of your character.

**PROFESSIONAL - GOALS:** Ego consciousness  
You are destined to attain a degree of prominence in your career, and can either make it creating your own business, or attain recognition in some kind of leadership role. You invest your identity into your career for better or worse, and your feelings of self-esteem and personal honour are intimately connected with the impression you make in the professional world. Take care not to flaunt the power you attain.

**PERSONAL - GOALS:** Ego consciousness  
Your relationship to your father will have played an important role in your upbringing - especially as regards defining your need to express yourself through worldly achievement. Though you can attain your will in the world, and may be destined to great things, your achievements can only be measured according to how refined your personal character is. This means overcoming a tendency to indulge your ego.

## Emotions

### Moon In Gemini

**PROFESSIONAL - EMOTIONS:** Gather impressions  
You are a restless soul with an insatiable appetite for new impressions. This restlessness keeps you on the go, travelling, visiting, making connections and above all assimilating knowledge. Other things being equal, you have superb talent for communicating with other people and this will be a distinct advantage in jobs which require making contacts, selling, telephoning etc. You are good at learning new things fast. You are persuasive, and invest your feelings into what you say. Whilst some may consider your ability to talk on almost any subject rather superficial, you are genuinely fascinated by general conversation and the workings of the mind.

**PERSONAL - EMOTIONS:** Gather impressions  
Childhood friendships and sibling relationships have had a tremendous formative effect on your life, as do the first experiences in school. Painful recollections connected with communication problems, and a feeling of being misunderstood will have left their mark on you. Part of the maturing process for you is connected with being more selective about what you let yourself get distracted by. However, curiosity and interest are the food of life to you, and you can find meaning in small things other people might think of as insignificant. You are more an ideas person, than an emotional being, and you are most comfortable in partnerships which are not too emotionally demanding, and which allow you time to pursue your mental and social interests.

### Moon In 4th House

**PROFESSIONAL - EMOTIONS:** Attachment to the home  
Security is a major preoccupation for you, and you may wish to work in areas concerned with the home, land and property, or with areas connected with caring for others, or perhaps on environmental issues. You may have a talent for gardening. You function best when there is peace on the home front, but often find yourself distracted by family worries. Parental bonds, or a reluctance to get away from the family can limit your possibilities to advance professionally. However you are appreciated at work because of your concern for others, and ability to create a comfortable atmosphere. You may like to work from home, or have a job not far from your house.

**PERSONAL - EMOTIONS:** Attachment to the home  
You were profoundly influenced by the emotional atmosphere as a child, and you were very sensitive to parental moods, especially your mother's. This has made you into a sensitive and rather vulnerable person, and you will be strongly motivated to create a caring and secure family environment later in your life. It would be wise to view the ups and downs of family life in a more objective way, rather than allowing your own mood to be constantly affected by changes. Your home is a haven for you, and you become very attached to it. When radical changes effect your home however, you will discover that you have a remarkable capacity to adjust. You need to spend a lot of time at home, and may find great pleasure in looking after your children, cooking, making home improvements etc.

### Moon Opposition Venus

It may be difficult for you to discern the influence of this combination of planetary energies as it is not a strong configuration in your chart. As these two planets are on opposite sides of your horoscope they indicate that you are split between two quite different drives. As a result you tend to imagine other people with the negative qualities described.

**PROFESSIONAL - EMOTIONS:** Empathy  
You have very winning ways with all kinds of people and can gain a great deal of personal popularity. Dealing with others - particularly the public - in some way or another, can be an important ingredient in your profession. You may simply like people; at least people feel as if you do. You have a particular talent for dealing with women, partly because you have an instinctive understanding of their ways. Women can play an important role in your professional advancement - indeed you may be rather dependent on their goodwill for better or worse. Basically you are a caring and sympathetic person - and you show it. Therefore you would function well in a position which gave you daily contact with people and the opportunity to support and nurture them in some way. You shun hard professional tactics and are easily hurt when rebuffed. This means that you may be too fragile to handle the rough and tumble of the marketplace. To feel secure you need to have a solid economy, otherwise you tend to be afflicted by worry. You have a talent for investment - particularly in property.

**PERSONAL - EMOTIONS:** Empathy  
You have an affectionate nature - you have both the capacity to give succour and love, and a deep need to receive it. Obviously therefore, relationships are extremely important to you, and you tend to form lasting bonds at an early age. Actually the greatest

bond will be to your own family, particularly the mother - for better or for worse. Men with this aspect tend to marry early and unconsciously compare their loved one with the mother. There is a tendency to slink back to the family home for a good meal from time to time, and the wife can have great difficulty asserting her own authority over the mother's. In more extreme cases the man evokes maternal behaviour in his partner, and finds her wanting sexually as a mistress. It is difficult to feel sexually attracted to a mother figure, so unfaithfulness can ensue, as the man seeks to fulfil his sexual needs elsewhere.

Women with this aspect have to learn to integrate the two feminine functions - maternal and erotic - into their lives in some way. If she has difficulty with this she will find the sexual element in the relationship deteriorating, and will end up spending all her time on the house or with the children. A maid might be the answer!

For both sexes there is a tendency to be overattached and clinging, and too fixated on material security. Unconscious and unresolved childhood needs for love and security spill over into later relationships. It pays to develop a more detached attitude and a greater indifference to the need for constant approval.

## Moon Sesquisquare Mars

It may be difficult for you to discern the influence of this combination of planetary energies, as it has only a mild effect in your chart.

The tension created between these two planets is for the most part on a hidden and unconscious level. It can manifest as stubborn confrontation in situations which threaten the ego or sense of emotional security.

### PROFESSIONAL - EMOTIONS: Temperament

You have a dynamic and forceful personality, and generally get your way in your professional dealings. Your greatest enemy is your temperament - you get angry easily, and when you get angry, you take ill-considered actions. So if your job involves dealing with the public, there will tend to be a lot of conflict. You may however function well if your job entails the need to confront people and get things done, but not if it involves diplomacy or sympathy. You are impatient, but on the other hand you tend to invest your heart and soul into your work and get things done quickly and efficiently. However, you create an atmosphere of tension around you, and are extremely sensitive to criticism. You often imagine attacks which do not actually take place, instinctively going on the offensive, or defensive, to deal with supposed threats. Obviously this kind of reaction evokes the very kind of attack you are seeking to avoid. Only by taking a long, cool look at your assertive nature and by developing greater sensitivity and calm as regards others, can you hope to win goodwill in your professional life.

### PERSONAL - EMOTIONS: Temperament

You were brought up in an atmosphere of tension which has made you constantly on guard. Perhaps your mother was an unusually aggressive woman, or perhaps there were many struggles in your family life. Whatever the reason you tend to get easily upset now - especially in your domestic life. Women with this aspect are often attracted to emotional men who express their feelings passionately and intensely. However this may be because of unconscious provocation from the woman, who - never having experienced peace and calm in her early life - recreates the atmosphere of tension through criticism or angry moods.

Men with this aspect tend to have a short fuse, and often go about in an irritated state of mind. By identifying early childhood patterns of tension it may be possible to combat these negative

emotional anger-states, which can be the source of a great deal of internal pain. Expression of anger rarely solves anything. It does not pay to let anger out, as you may fondly imagine. It pays to be conscious of the reasons for anger, before it arises. As you mature and you gain insight into your emotional nature, you can learn to create an atmosphere of excitement around you. You will be inspiring to be with, and moreover, you learn to combat insecurity by giving freedom of movement and encouraging independence in those you are attached to.

## Moon Semisquare Uranus

You will often feel the influence of this aspect, though stronger influences may predominate in other areas of your chart. You can expect this influence to be hidden and sporadic in its effect - which is negative, especially as concerned social issues, and issues of self-worth.

### PROFESSIONAL - EMOTIONS: Unpredictability

You are something of a gipsy, and this means you can adjust to extremely unusual professional environments. You would thrive in a job in a foreign country for example - the more exotic the better. You are well-suited to working with people who are alienated from society in some way, especially if they come from a different culture. On the other hand you function very badly in a conventional place of work, where the same functions have to be performed day in, day out. You have a very low threshold for boredom, so you are suited to a job which brings exciting changes and variation during the course of the day - preferably meeting people. You have an advanced intuition and very sensitive antenna - this may give you some talents in the New Age sphere.

### PERSONAL - EMOTIONS: Unpredictability

You do not have conventional desires as far as domestic harmony is concerned. In your childhood there were many unsettling influences and a general atmosphere of unpredictability, excitement or stress. You need to feel that something is happening around you. This means that you can get very restless in relationships, and if you feel bored - and you often do - then you start getting provocative. You are best suited to relationships which keep you occupied with new daily challenges - and you have a strong need to express your emotional energy in group scenarios. Your partner will not be able to satisfy your need for stimulation on his or her own. You thrive in unusual domestic relationships - for example communal living, flat-sharing or residence abroad. For partnership to function satisfactorily it is essential that you stop distancing yourself emotionally - this gives the impression that you do not care for your loved one.

### EMOTIONS - EMOTIONS: Unpredictability

Extraordinary circumstances regarding your relationship to your family - particularly your mother - and your general upbringing, have evoked a very detached emotional attitude in you. In all probability your relationship to your mother was characterised by a sense of equality or of friendship, rather than traditional patterns of dependence. From one point of view you were never allowed to feel a natural dependence and you protected yourself by developing detachment, but from another point of view you rejected your mother whenever she tried to assume the traditional maternal role. There may also have been an element of unpredictability about your mother's behaviour - a situation in which you never quite knew what she was going to do next. Later in life you display this inherited tendency to detach yourself when encountering emotional challenges. You send the unconscious message that you are quite prepared to leave if there is going to be too much trouble, and that you can handle

your own freedom. Of course you can, but this means that you end up in half-relationships in which you are neither living with, nor quite living without the partner. When you discover that your love of freedom and independence is partly a device to protect you from getting hurt emotionally, you learn to express feelings of commitment with greater warmth, and this in turn creates more security for the partner, who will reciprocate by showing greater commitment.

## Moon Trine Neptune

It may be difficult for you to discern the influence of this combination of planetary energies as it is not a strong configuration in your chart.

Please bear in mind that the contact between these planets is harmonious, which means that you will rarely be troubled by their negative influences. They represent a resource you can draw from.

**PROFESSIONAL - EMOTIONS:** Develop intuitive sensitivity  
You are a supremely sensitive and impressionable person, and this will express itself as a moodiness and indefinable dissatisfaction. Yet you will almost certainly have creative and caring sides to your nature which can stand you in good stead professionally, as long as your job is not monotonous or meaningless. You have a capacity for being very sympathetic and understanding, and this may be a part of your work. You have spiritual talents - perhaps you can work with dreams or the unconscious in some way. You are powerfully influenced by your environment, and including the mood of the people around you. It is wise to choose environments free from pollution, spiritually, emotionally and physically.

**PERSONAL - EMOTIONS:** Develop intuitive sensitivity  
The greatest challenge for you is to attain emotional satisfaction, and this is best done by understanding the nature of your childhood. It is essentially for you to avoid the tempting pleasure of indulging your emotions and sentimentality. You so easily fall into negative emotional states, and this can make life miserable for the people around you. Your emotional impressionability creates serious problems in partnership matters - you simply have difficulty distinguishing the boundaries between yourself and your loved one. You take on the moods of others or absorb negative vibrations from the environment. The older you get the more you realise that this is just a bad habit, based on early conditioning. Avoid jumping into emotional swamps! Having said this, you have a wonderful talent for tuning in to other people emotionally and understanding them in depth. You are a very sympathetic person.

**EMOTIONS - EMOTIONS:** Develop intuitive sensitivity  
As a child you were profoundly influenced by the mood of your mother. You may feel the bond is close, you may idealise your mother, but there are strong indications that she sucked you in to her negative moods, enlisting your support and care. At worst she may have been something of a martyr, or in bad health, at best she was probably rather sad at times. This evoked guilt feelings in you, and an unconscious need to make things better. Actually you are born to be concerned and helpful, so your mother could not really help evoking these feelings in you. The essential thing in your life is to realise how profoundly you were influenced by the emotional atmosphere of your childhood. By making conscious use of the creative side of your imagination, you can learn to avoid the old traps and create a positive environment for yourself and those close to you.

## Moon Opposition N. Node, Moon Conjunction S. Node

This aspect is extremely powerful in your horoscope, and will be a major feature of your character.

This aspect shows a strong polarisation in your chart, and difficulty in integrating the principles described. There may be travel and separation in connection with the principles described below.

**PROFESSIONAL - DESTINY:** Mother Earth

You can play an important role channelling the hopes and dreams of on the one hand large numbers of people, and on the other more intimate groups - especially females. You may feel a strong identification with your country - or a pull away from it. Your unusual intuitive power can give you certain talents as regards tuning in to changes that happen on a collective plane - especially in connection with the world of Nature. You are the channel through which group feeling is manifested.

**PERSONAL - DESTINY:** Mother Earth

Negotiating the twists and turns of your emotional relationships is a full-time occupation for you. As a woman you will be moved by the primitive archetypal urges of the female energy in Nature; as a man you will be attracted to earth divas because you need to feel the full force of emotional power flowing through you. You will lose your footing more than once because of the universal power of emotional attraction or dependence, and plunge into the emotional maelstrom. Sudden changes can take you far from home, and growth in life finally comes when you learn to orientate yourself in the world of your feelings and your unconscious mind.

## Mentality

### Mercury In Sagittarius

**PROFESSIONAL - MENTALITY:** Inspire others

You have a need to make your opinion heard in your professional life. You have a special talent for drawing philosophical conclusions from everyday events. Perhaps this manifests as an interest in politics and foreign affairs. You will almost certainly travel a good deal to widen your cultural horizons, and there is probably a language talent which might manifest bilingually. You thrive in a profession which offers variety, movement and intellectual challenges. You wilt in a closed environment. You have great plans, but the record may show a lack of ability to implement them, or a loss of interest just when decisive action is needed.

**PERSONAL - MENTALITY:** Inspire others

You have an extremely active mentality, and you restlessly seek new mental horizons to explore. You probably take pride in your studies - which you pursue for the sake of knowledge alone - and you tend to have an opinion on anything. In philosophical discussion you are less than diplomatic, and may tend to drown the opposition in the heat of the argument. Whereas it is true that you take a passionate interest in things, make sure that you listen respectfully to other people's opinions. What you so passionately argue for one day, drops from your list of priorities the next, so take care.

### Mercury In 9th House

**PROFESSIONAL - MENTALITY:** Get knowledge

Your intelligence, curiosity, and desire for understanding are great professional assets. You are excellent at juggling ideas, and persuasive at putting them across. You could have success in the

publishing branch. You know how to meet other people on their own mental level, and would do well in dealings with people from foreign countries because of this talent. You may find success in areas where it is important to get a message across to the public, perhaps in the media, or in marketing areas or teaching. Training courses and a good education are a prerequisite for professional success. To thrive professionally you should have access to information, and be able to draw on a large body of personal knowledge.

**PERSONAL - MENTALITY:** Get knowledge

You are driven by an insatiable curiosity and desire for understanding. You are a walking question mark, constantly seeking to find a deeper meaning in the smallest events that cross your path. Perhaps you were strongly influenced by siblings or a teacher early in life to do something with your intelligence; now you are the eternal student, seduced by knowledge and the power of education. You speak intelligently on many different subjects and generally have an opinion about everything. Discussions with you can be somewhat frustrating, because you have a tendency to change viewpoint constantly. In your view this is OK: you know in your heart that truth is a relative matter, only the search for enlightenment and knowledge is constant. Get your ideas down on paper.

## Mercury Conjunction Sun

Please read page 5: "Sun Conjunction Mercury"

## Mercury Square Jupiter

You will often feel the influence of this aspect, though stronger influences may predominate in other areas of your chart. In your chart there is disharmony between these two planetary influences, and this will be reflected by many struggles both within your mind, and out in the world.

**PROFESSIONAL - MENTALITY:** Disseminating information  
One of your great professional assets is your intellectual curiosity and interest in communication and information. You can be something of a perpetual student, accumulating knowledge and insight for a rainy day. These intellectual talents bring you success in fields which require study, writing, meeting people, travel and generally exchanging ideas. You have excellent teaching talents, because you both have the capacity to concentrate on details, and at the same time can draw wide-ranging conclusions. You can maintain an overall perspective, even when drowned in facts and figures. You can also be extremely persuasive, and this can give a talent for sales. People can come to you for advice and information. You are also suited to a position in an office, where you have access to phones and faxes, computers etc. You may be rather restless, so you need to work in a position in which you work with a whole spectrum of daily tasks, or in a situation in which you meet a variety of different people, perhaps whilst travelling around.

**PERSONAL - MENTALITY:** Disseminating information  
Gaining intelligence is a strong motivating factor in your life. Attending courses and studies, learning languages, travelling and meeting people, are all important activities for you, because they give you the opportunity to train and expand your mind. A foreign language may play an important role in your life - you certainly have the capacity to master more than one language. You can be witty and a mine of information. On the other hand you may feel a strong need to impose your ideas and opinions on others. You hate to be belittled mentally, and you may compensate for this by becoming argumentative, or by dutifully trying to enlighten people about what the truth is. It is better to fulfil this need in some job for

which you get paid - rather than tire your partner with your constant need to explain and inform. It is wisest to give your opinion only when it is consciously sought by others.

**THE MIND - MENTALITY:** Disseminating information  
Brothers or sisters may have played a powerful role in your mental development as a child. Perhaps you felt unintelligent in contrast to a sibling - or there may still linger in you a sense of injustice as regards how much attention a brother or sister received in contrast to yourself. Contact with teachers and other children at school will also have been very formative, inspiring you to do your utmost to compete mentally. Whatever the circumstances you do not like being ignored. There is a deep need to make your opinions heard, so you have a tendency now to be rather voluble. If you are not careful, your forceful opinions can have the opposite effect to what you desire. You need to be heard and understood, and you need to communicate your own perceptions about fairness and justice. However, unless you cultivate a sensitivity to mental response, you will never get the message across. Ask yourself: are you getting the results you want from your communication? Perhaps what you consider important, is not so important to others. Choose your audience carefully, and ensure that you get feedback.

## Mercury Conjunction Saturn

It may be difficult for you to discern the influence of this combination of planetary energies as it is not a strong configuration in your chart.

This connection between two planets shows a fusion of two principles for good or ill. You integrate quite different energies and express them as one process. This manifests as a strong personal character trait.

**PROFESSIONAL - MENTALITY:** Mental discipline  
You have a logical and disciplined mind, and special skills as regards working out systems and performing tasks which require patience for long periods of time. You prefer to stick to rules and established methods, but you can apply your mind to any task in a very conscientious way, if required. You may be rather suspicious in allowing the imagination to have too much influence you are the kind of person who reads instructions carefully and follows them. This can make you a little inflexible as regards integrating new methods. Furthermore your admirable attention to detail can hinder you in getting an overall perspective on things. In the first phase of your professional life you can be afflicted by a sense of mental inferiority, so it is important for you to spend time on further education in a constant process of acquiring new skills.

**PERSONAL - MENTALITY:** Mental discipline  
You are oversensitive about your intelligence and have a tendency to work twice as hard to prove to yourself and to others that you can meet intellectual demands. As you put so much effort into improving your mind, you can become quite an expert in your chosen field. However in personal relationships you can become very defensive when you are misunderstood, and in situations when you try to understand another person, a mental block can descend because you invest too much self-conscious effort in the process. Relationships would benefit dramatically if you were more relaxed in this respect. You are reluctant to admit it when you do not understand, and this can lead to an escalating situation of misunderstandings. You are also rather a stickler for detail and can be frustratingly pedantic, and your formal style tends to stand in the way of mental spontaneity. Many of the problems around communication improve after the age of 30, as you learn that communication is not a competition but rather a

two-way process in which understanding brings mutual benefit.

#### THE MIND - MENTALITY: Mental discipline

You have probably experienced a number of episodes which undermined your mental confidence as a child. This can be connected with siblings who you felt performed better at school than you did, or experiences at school connected with teachers or pupils in which you felt mentally exposed or ridiculed in some way. Whatever the cause the fear of not being able to grasp facts can be a mental block which acts as a barrier in communication. Trying too hard to understand can prevent you from learning. Some people with this aspect panic when mental demands are made on them, others develop amazing mental self-discipline and determination to make progress with their education. Sometimes further education is interrupted because of a lack of faith in the outcome, and if this is the case, you may find yourself taking up education again well into your thirties. There is however a danger of gathering information and learning facts and figures for their own sake. Too much concentration on details hinders you from seeing the wood for the trees. A point comes when it is important to abandon theory and put learning into practice. When you overcome your lack of mental confidence you can become a model of clarity and mental efficiency.

### Mercury Trine Uranus

This aspect is extremely powerful in your horoscope, and will be a major feature of your character.

Please remember when reading this section, that the harmonious nature of this contact means that you can use the energies creatively, for the most part without negative effects.

#### PROFESSIONAL - MENTALITY: Inventiveness

You have some mental qualities that border on genius. Being receptive to signals in the environment which go over the head of the average person, you know how to integrate radical new ideas into your work. You have the inventor spirit, and you are always willing to experiment with new methods. By developing your knowledge of the scientific functioning of the mind, you can be a driving force for renewal at work. You may be skilled at technical matters, computers or untraditional, even provocative subjects. It is important for you to learn to put your ideas across in a constructive manner however. You have a tendency to talk at cross purposes, without ensuring the other person is following you. Coupled with this you may also be impatient with people as they fumble with old concepts and ideas. You can be provocative, or go off at a tangent - and this may only serve to alienate you. Clarify your intentions when you communicate. You have a talent for exotic languages.

#### PERSONAL - MENTALITY: Inventiveness

Other things being equal you have a very quick mind, and you attract attention through your ability to give conversations a surprising turn. You are quickly bored by conventional waffling and you are prepared to say anything, repeat anything, to give conversation more interest. Although at times you can be very amusing, this tendency easily leads to confusion and misunderstandings in relationships. You break the flow of communication - a habit you learned in childhood - and this leads to a rather stressful atmosphere in intimate relationships. You need to involve yourself with friends or groups which have similar interests to you, rather than expecting to get all the mental stimulation you desire from your partner. When you get bored in intimate relationships, you tend to say and do the opposite of what is expected, just to get results. You also tend to make provocative statements. This can be exasperating for the partner.

#### THE MIND - MENTALITY: Inventiveness

You experienced an unusual mental environment as a child. This may have been due to siblings who were different in some way, or living in a foreign environment, perhaps hearing another language spoken. There is also a strong possibility that you had difficulty being heard as a child. You may have been interrupted a lot before completing what you had to say, or you may have developed the habit of interrupting others as the only way your voice or ideas could be heard. Perhaps in school there were special learning problems.

The result of these experiences is that your mind has developed in an unusual direction. You are both more open to the unconventional, the provocative, the surprising, yet you may feel misunderstood by people. You will often alienate people through interrupting or being provocative, or simply coming with crazy ideas which are neither here nor there. Many of these communication techniques have been developed to get attention but is this the kind of attention you want? You also have a tendency to live too much in your head. Get into your body and down to earth. When you use your inventive or intuitive talents on a practical level, you can serve as a fountain of inspiration for others.

### Mercury Square Pluto

It may be difficult for you to discern the influence of this combination of planetary energies; it is weak and may be outweighed by stronger influences.

In your chart there is disharmony between these two planetary influences, and this will be reflected by many struggles both within your mind, and out in the world.

#### PROFESSIONAL - MENTALITY: From secrecy to openness

You have an investigative mind and considerable talent for finding out about hidden issues and analysing things in depth. You are also good at keeping secrets. As such you are a natural detective and are able to find the root cause of problems. This is a useful talent in psychological matters, when working with computers or anything requiring fanatical attention to detail. There is an ability to tap hidden sources of information. In your professional life, however, you are inclined to be suspicious, fearing that important information is being kept from you. People can feel that you interrogate them, and they tend to clam up. Sometimes you express yourself far too forcefully and do not allow people to come with their views. Success comes when you overcome communication problems connected with anxiety.

#### PERSONAL - MENTALITY: From secrecy to openness

You are a rather secretive person; you think hard and deeply, and sometimes you are plagued by compulsive ideas and fears. Much of this is a result of childhood anxiety connected with lies, secrets or lack of communication. Because you do not always let on what you are thinking, you can easily be misunderstood. Put people's minds at rest by clearing up these misunderstandings and strive to be as open as circumstances permit. When your feelings are hurt you can be silent for long periods. And when you are insecure, you tend to be suspicious of your partner. Harmony in relationships comes when you resist the tendency to argue for hours at a time, or to use silence as a weapon, and instead learn to be open and trusting.

#### THE MIND - MENTALITY: From secrecy to openness

As a child you were deeply affected by secretive behaviour on the part of parents or siblings. You had a strong intuition that important facts were kept secret from you - you may indeed have been lied to in connection with some profound truth. Later in life you may well have discovered the details of what has been kept

from you - this can for example have something to do with secret connections your parents had - for example half-brothers or sisters you never knew about. There is a strong possibility that a family member was extremely non-communicative or silent in a rather disturbing manner. Perhaps you too felt that it was difficult to make your voice heard.

Whatever the actual circumstances, the result of this is a gnawing doubt concerning the truth of what you hear, so that you are often driven to deeply question the motives or actions of others. Sometimes your tendency to cross-examine will drive a partner behind a protective wall of silence for long periods of time; sometimes you too will clam up as a way of applying pressure in a relationship.

As you overcome these difficulties you learn to relax more in communication matters. By giving people the time and space to respond to your questions without anxiety, and by allowing people to have their secrets if they so wish, you can attain peace of mind. Ultimately your life will be enriched by the discovery of quite unique mental abilities on a deep psychological level.

## Mercury Conjunction MC

This aspect is extremely powerful in your horoscope; every action you take will be coloured by this energy.

This connection between two planets shows a fusion of two principles for good or ill. You integrate quite different energies and express them as one process. This manifests as a strong personal character trait.

**PROFESSIONAL - GOALS:** The ideas person

It is important for you to integrate your mental faculties in your career. Teaching, dealing with communication, writing, meeting people and generally creating contacts are all part of the employment spectrum for you. An inner restlessness will ensure that you either seek a career with a variety of interesting functions, or change jobs at regular intervals. The important thing for you is to get your ideas across in society.

**PERSONAL - GOALS:** The ideas person

You like to have your finger in a number of pies, and although this can be manifested as versatility, you have a tendency to be easily distracted from your personal goals. Changes of views and a restless nature may mean that you move often. A stimulating atmosphere - both at home and in your work - is a prerequisite for personal satisfaction. Children, chatting and play can keep you happy all day.

## Values

### Venus In Capricorn

**PROFESSIONAL - VALUES:** Responsibility in relationships  
You have a natural business talent, a thrifty nature and plenty of common sense. Women with this position will be powerfully motivated by ambitious goals, and men will be attracted to ambitious women. You have an administrative talent - especially as far as financial and business matters are concerned. You are strongly attached to the work ethic, with deep convictions about personal responsibility in career matters. As such you are a person who can be relied upon. You strongly value social status, and are willing to work hard and conscientiously to achieve this. You have a talent for wielding authority in a pleasant way, often securing agreement without strife whilst remaining fully in charge.

**PERSONAL - VALUES:** Responsibility in relationships

You are very careful in your personal relationships - experience has taught you to size potential partners up cautiously, and this

also means assessing their professional situation, morals and sense of responsibility. Status and economic security may take precedence over romantic love. Men with this position are attracted to efficient and ambitious women who possess a rather repressed sensual vulnerability. Women tend to find more happiness professionally than privately, until they learn to take the risk of being vulnerable. Both sexes take relationships seriously and tend to have strong moral values. There may be an inclination to choose an older and more mature partner. Marriage is a contract that should stand the test of time.

### Venus In 11th House

**PROFESSIONAL - VALUES:** Social warmth

You are an extremely sociable person with a great, though rather impersonal interest in other people, especially if they come from an unusual environment or have original interests. Your social talent gives you certain professional advantages, as you become an appreciated member of the social group to which you belong. You can find great pleasure in the social arrangements that go along with your work - indeed this may be where you do your best work. Generally speaking you are inspired by strong humanitarian values, and you would be happy to work in a position where you can give people social support in some way, or perhaps work in a consciousness-enhancing field. You have a talent for working in groups - especially when there is a majority of women.

**PERSONAL - VALUES:** Social warmth

You have a kindly and tolerant attitude to most people, and this results in you building up a large circle of friends and acquaintances. Warm friendly relations have a high priority for you, and you have a natural charm which ensures that friendships are mutually rewarding. In more intimate relationships, your social life will still be very important for you. You are not comfortable channelling all your love and affection on just one person, so it is necessary for you to maintain your social connections if you want to feel fully satisfied. You have a talent for spreading your love on a wider basis, and though this means that you can be rather romantically cool in a one-to-one relationship, you can be valued by others on a collective level. You need the feedback and appreciation of your friends to feel good about yourself. You are blessed with affectionate and supportive comrades.

### Venus Sextile Mars

This aspect is extremely powerful in your horoscope, and will be a major feature of your character.

The sextile aspect is favourable, and stimulates your capacity to learn from experience. You can expect the negative effects to be minimal.

**PROFESSIONAL - VALUES:** Enjoyment

You have a dynamic creativity, but how you use it depends greatly on the nature of the aspect. Harmonious contacts between Venus and Mars give an exciting and winning nature, and the ability to work creatively with both sexes in whatever field you may be in. Inharmonious aspects also give considerable creative power, but conflict regarding sexual roles can sabotage success in one way or another. There is a strong erotic element in your character, and this can lead to sexual involvements which distract you from your business. Men with these aspects tend to be more active in their sexual pursuits, women often feel they are on the receiving end. It all depends on the unconscious signals that you send, as you have a natural sex-appeal. If all goes well you can emanate warmth and congeniality which brings

professional popularity. This can lead you to success in many fields, especially those in which physical strength is combined with grace in some form. You would also work well in public relations, and in dealing with children. Entertainment and having a good time can be very important for you in your work.

#### PERSONAL - VALUES: Enjoyment

As Mars and Venus are the male and female archetypes, this combination brings a powerful need to resolve the dilemma between the sexes. Harmonious aspects show greater ease in this matter, but inharmonious contacts and the conjunction bring extremely difficult challenges. Often confusion about the sexual role stems from the impression given by the parents concerning their love-life, particularly if infidelity was involved. Women with this aspect often experience a strong contrast between the demands of femininity and those of sexuality, and in extreme cases the man is perceived as being a primitive only interested in sexual satisfaction. Actually the woman sends strong sexual signals but gets confused about the response she receives, not knowing whether to take the initiative, (ladies don't do that), or be passive. The paradox is that women with this aspect have strong masculine traits, and can resent the man taking the initiative. Men with this aspect will sometimes have rather feminine traits, and have difficulty taking the initiative.

Whatever the circumstances, the erotic life plays an important role in the character, and there is a strong tendency towards sexual involvements which can be a threat to stable relationships. There is in both sexes a difficulty in integrating the loving nature with passion and desire - when to be tender and affectionate, when to go your own way? When to be attached, when to be detached? When to be chaste, when to let the body take over? When a balance is found, then there is great potential to have enjoyable relationships on both the physical and spiritual level.

### Venus Trine Jupiter

This aspect is extremely powerful in your horoscope; it will dominate many areas of your life.

Because there is a good aspect between these two planets, you can expect the positive consequences to be strong and very creative, and the negative consequences minimal.

#### PROFESSIONAL - VALUES: Fortune

You have excellent aesthetic judgement, and strong personal values and convictions. You are suited to any profession which can make use of your ability to evaluate and compare - especially if this is connected to cultural or artistic projects. You also have a great ability to impress others with your charm and insight. You would be wasted in a job which did not allow you the opportunity to meet and influence people. You can deal with cultural issues or artistic objects, you can travel in your career, you have diplomatic talent, you have a great sense of style. Success often comes easily for you, and you may thrive in the company of women, and have their professional support. Normally you are lucky, and a great deal of money can flow through your hands. How fast it flows is another question altogether. Your warm personality and optimistic view of the future are your greatest assets.

#### PERSONAL - VALUES: Fortune

You are an extremely loving and romantic person, and this brings both benefits and problems. Often you fall in love with love, and have difficulty settling into stable relationships because of your hunger for romance and emotional stimulation. You are however a great lover, and your attention makes your loved one blossom. There is a tendency to be attracted to a person who comes from a different culture or country - perhaps this is because of a need to widen your emotional horizons. There is a tendency to marry

upwards in society. The most important value for you in a relationship is intellectual or cultural stimulation. You need to be able to respect your partner for his or her intelligence. A woman with this aspect has a great need for attention and appreciation, and particularly values the mental stimulation the partner can give. A man with this aspect has a great appetite for the opposite sex, and whilst intelligence is important, there is often a taste for exotic or good-looking women. Faithfulness may not be a strong point, though sooner or later there will be a tendency to tighten up moral values regarding love.

#### LOVE - VALUES: Fortune

The issue of love or romance plays a dominant role in your life. Early intimacy with a sister, or a strong awareness of your parent's love relationship may be the foundation on which you build romantic expectations. Perhaps your mother was the romantic type, widely travelled or with pronounced cultural or artistic interests. If so, she may have expressed exaggerated views connected with love and relationships, inspiring in you a longing to indulge a cornucopia of romantic desires. Whatever these early influences were, you may find later relationship experiences not quite living up to your inflated expectations. It is important to be realistic, as romance and glamour last only a short time. Intellectual growth and mutual stimulation through shared interests or travel can however bring lasting pleasures. You can bring tremendous warmth and passion to a relationship, and you are probably a very giving person - but it would be wise to remember that your partner probably does not have this same capacity to express love. Spiritual or religious values may play an important role later in your life.

### Venus Quincunx Uranus

It may be difficult for you to discern the influence of this combination of planetary energies as it is not a strong configuration in your chart.

The connection between these two planets means that you tend to overcompensate in the areas described by being too helpful. This means that you unconsciously encourage other people to take advantage of you.

#### PROFESSIONAL - VALUES: Untraditional relationships

You need to work in an exciting environment where you are together with people who have untraditional ideas, or who come from unusual cultures or backgrounds. You function best when you meet a number of different people during the course of your working day - preferably interesting or unconventional types. You have a talent for working with the media - you may also function well in a job which brings travel to exotic places. As you have a strong interest in consciousness-raising groups you may get involved with political, spiritual or social movements. You function well in a team - but not in a conventional working environment where you meet the same people all the time. You need to feel as free as a bird. You have a talent for making friendships - you make an electric impression on others, but actually you are rather detached yourself.

#### PERSONAL - VALUES: Untraditional relationships

The major characteristic of your love-life is your need for excitement and the unpredictable, coupled with a restlessness which you feel when relationships do not offer you the opportunity for personal development. You have a tendency to form relationships to people from foreign countries, different cultures or unusual environments - in other words with a person who can bring an element of the exotic into your life. Often you can find yourself in a situation, in which you choose not to actually live together with a partner. Preferring to keep your independence -

especially as regards the freedom to have your own friends - you maintain the excitement of romance by periodic meetings where you can constantly have your need for excitement fulfilled. In extreme cases you experience "airport-love" - short but exciting relationships with someone from another area of the world. In this way you avoid committing yourself emotionally. If you want a more permanent or stable relationship, or if you would like to feel more secure with your loved-one, it is essential to make a deeper emotional commitment.

#### LOVE - VALUES: Untraditional relationships

You have a rather original attitude to relationships which probably comes from early experiences of the relationship between your parents, or perhaps an unusual connection with a sister, or an unconventional bond to another female. The upbringing may be characterised by mixed messages as regards your own sexual identity - daughters perhaps encouraged to develop a masculine style and sons a feminine. Your parents' love-life may have been characterised by sudden separations; at least something in your upbringing has evoked a tendency in you to be very detached and rather cool in the expression of love. You instinctively anticipate a sudden break of emotional bonds, and learn at an early age to go your own way.

Later in life this inability to commit yourself fully to an emotional bond creates distance in your love-life. You send the unconscious message that you can do without the partner, and this in itself can lead to the sudden separation you inwardly are trying to avoid. If a potential partner does not experience commitment from you, he or she will go elsewhere. Your romantic signals also attract people who have no intention of committing themselves and imagine they can have an "enlightened" (non-committed) relationship to you. By cultivating exciting social bonds to interesting people, you can satisfy the need for stimulation which one relationship cannot provide by itself. It is not your fate to be bound by traditional concepts of marriage - you can show by personal example the many alternatives that exist to conventional relationships.

### Venus Sextile Neptune

This aspect is extremely powerful in your horoscope, and will be a major feature of your character.

The sextile aspect is favourable, and stimulates your capacity to learn from experience. You can expect the negative effects to be minimal.

#### PROFESSIONAL - VALUES: Acceptance

You have an extraordinarily refined aesthetic sense. Disharmony evokes an almost physical unease in you, so you are strongly motivated to recreate balance in your inner and outer world. Professionally this can manifest in a career where matters of taste are important, or diplomatic talents necessary. You are especially suited to public relations matters, but your genuine compassion for other people may incline you to work helping others in some way. Although you may be strongly inspired by items of physical beauty, you will rarely be satisfied by material well-being alone. You have musical and artistic talents.

#### PERSONAL - VALUES: Acceptance

You are willing to make sacrifices for love, and as an incurable romantic you are skilled at creating circumstances for personal disappointment, either through poor judgement regarding potential partners, or unrealistic expectations. You are looking for more than a worldly love - you need to feel as if your soul is touched by your partner, you need to feel a spiritual bond. To be happy in this area of your life you must understand and accept so called imperfections in others. The perfect partner does not exist

and you will never find him or her. It is important to choose an equal - not someone you idealise or want to save - and it is important that the chosen one shares ideals and dreams which transcend conventional relationship needs. Unhappiness and dissatisfaction in love is actually the result of unconscious impressions from your distant past, and these feelings actually have a spiritual purpose now.

#### LOVE - VALUES: Acceptance

You have the capacity to develop a deep spirituality and compassion of an almost religious nature. Worldly relationships will never fulfil all your needs, though spiritual or creative practice might. You tend to start love relationships with tremendous dreams and ideals, yet after a few months you will often feel let down by the partner. Actually the partner - not wishing to disappoint you - tries to live up to your ideals in the first stage of the relationship, but reverts in time to his or her true nature. Men with this influence will often give the female partner the impression that she is imperfect in some way and this can lead to her losing self-confidence and ultimately become very unhappy. Both sexes tend to imagine that the ideal relationship is just around the corner, or idealise an old relationship which never became actualised....all the better to dream about.

If you examine your past carefully you will find that this pattern of unrealistic expectations arises from childhood experiences. One of the parents - most probably the mother (and possibly a sister) - will have expressed a deep dissatisfaction and longing for another kind of relationship than the one she had. This may well have been expressed non-verbally. The unconscious message to you was that the ideal relationship exists but is unattainable. Thus you are on the alert for flaws in your chosen partner - and miraculously they arise. This is a complex projection based on an unconscious disappointment programme. As awareness dawns about this, you learn to resolutely avoid false expectations, and see both your own weaknesses and those of others in a compassionate light.

### Venus Trine Pluto

This aspect is extremely powerful in your horoscope; it will dominate many areas of your life.

Because there is a good aspect between these two planets, you can expect the positive consequences to be strong and very creative, and the negative consequences minimal.

#### PROFESSIONAL - VALUES: Transformation of values

You have the ability to awaken deep sympathy in the hearts of other people, and you are probably willing to go to great lengths to be appreciated. Your attention to others can evoke a very positive atmosphere and genuine good feelings, if you learn to avoid a few simple weaknesses. You tend to go too far in pleasing others and trying to create a good impression. In this way you can monopolise some people and alienate those who are not impressed by your apparent charm. Businesswise you have a special talent for getting the most out of resources. You can see the value in items other people might throw away, and can turn waste into something valuable. Financially you must avoid the trap of getting into debt by buying prestige items. Do not throw good money after bad. Above all avoid becoming economically dependent on others - you could end up being manipulated.

#### PERSONAL - VALUES: Transformation of values

Your intimate relationships are characterised by their intensity. You are simply not interested in a superficial or casual relationship. You have a tendency to invest a lot of energy into winning love and attention and this is actually a throwback to

childhood experiences which equated love with survival. You will often feel that it is fate that has brought you and your partner together, and that nothing will break the bond that has been established. Unfortunately, an unconscious fear of losing love can result in many exhausting emotional scenes. Relationships can lurch from crisis to crisis. When these negative influences have been transformed you will discover a real talent for giving loving support to others.

#### LOVE - VALUES: Transformation of values

At a very early age, love for you was equated with survival. Your relationship with both your mother, and possibly with a sister, was deeply complicated in this respect. A very real anxiety about losing love - and therefore parental life-support - has led you to develop an oversweet nature calculated to win affection. You invest your charm 200% in achieving this goal, and are normally successful.

Problems arise later on in your life because in the long run this investment of emotional energy is exhausting for all parties. It is very difficult for you to be consciously aware of what you do. Anxiety about losing love leads to intense love relationships, where jealousy plays an unspoken role - partly because you feel you have to be so intimate with everyone. In some cases you may subordinate yourself to your loved one and be misused, yet, paradoxically, it may be you who wields the power later on. It is a great relief for you later in life, when you realise that relationships function better when you relax. People like you more when you don't try so hard to please. You have so much love to give, why worry about how much love you get? And if some people don't like you, so what? - you know about the power of love.

## Drives

### Mars In Scorpio

**PROFESSIONAL - DRIVES:** Cut through to the essence  
You have deep energy reserves at your disposal, and there is the capacity to work under considerable pressure - indeed crisis situations can evoke outstanding qualities in you. You work in an intense and determined manner, and are capable of sticking to a project over a long period of time - you can even become obsessed by your work. There are special talents with regard to analysing a situation in detail, and you have an uncanny instinct for getting to the source of a problem. If a difficult decision has to be made, you can do it, even if it might mean telling someone an unpleasant truth or getting rid of someone who is superfluous. In some cases there can be a reputation for being ruthless, but this quality is often necessary if one feels limited by something which has outlived its usefulness. You have the capacity for helping others in crisis - especially on a psychological level.

#### PERSONAL - DRIVES: Cut through to the essence

You are a dangerous person when cornered, even though you may not give this impression at first glance. Other people sense your power and can feel rather nervous in your presence. Many passions rage in your centre, and you are very sensitive to situations which undermine your prestige. It would be an advantage for you if you could cultivate a more relaxed attitude to competition. Men with this position of Mars have a magnetic aura and powerful sexual drives. They like to exert a subdued power in love relationships. Women also exude an aura of power and sexuality, and are drawn to a man with an aura of mystery or secrecy. Jealousy - and even revenge - can be powerful unconscious factors in relationships. Both sexes hate to feel powerless and expend a lot of energy maintaining control in any

given situation. During your life emotional negativities will be transformed through powerful psychological upheavals, and you can become a silent force for good in your environment.

### Mars In 8th House

#### PROFESSIONAL - DRIVE: Power dealings

You are a person who knows power. You are often at the receiving end of demonstrations of might, but you are fearless in your response - at least outwardly. This suits you for a job in which you are exposed to danger, or have to deal with the aggressions of others. You have no difficulty identifying an enemy when you see one, and you are ruthless when dealing with him. There is also something of a detective in you, as you like to operate undercover. You may choose to use your talents on an outer level, through a career which demands determination, perseverance and secrecy, or on an inner level in which you deal with psychological problems. You are particularly good at handling trauma and shock - partly because you are no stranger to these things in your personal life. You may have a talent for hypnotism or healing.

#### PERSONAL - DRIVE: Power dealings

Emotional and erotic relationships make great demands on your energy. Childhood trauma invested you with an amazing power to survive in difficult situations. But this same survival talent sabotages harmony later in life. You are sensitive to, and fearful of, being controlled by another person. As a result you are emotionally defensive and assertive at the same time, and actually end up being in control yourself. The exaggerated need to master developments in partnership can mean that you do not allow the partner room to manoeuvre. There may be jealousy and exhausting emotional power battles. Sexually you have difficulty surrendering. Sex and power become confused. Only by trusting the other and giving up control can you achieve true sexual satisfaction and release. During the course of your life you develop great psychological insight which enables you to overcome and transform the pain of being crucified by your desires.

### Mars Sextile Venus

Please read page 14: "Venus Sextile Mars"

### Mars Sextile Jupiter

This aspect is extremely powerful in your horoscope, and will be a major feature of your character.

The sextile aspect is favourable, and stimulates your capacity to learn from experience. You can expect the negative effects to be minimal.

#### PROFESSIONAL - DRIVES: Ebullience

You are a person with considerable optimism and energy, and your generally dynamic nature and positive attitude to the future will most probably bring expansion and success in your professional life. You are endowed with great courage and enjoy a challenge, so you would thrive in employment which gave you the opportunity to expand your horizons and travel. There is something of the pioneer in you. As intellectual challenges are also important, you need mental stimulation and the opportunity to discuss issues and get important messages across. You can be very persuasive, but perhaps you also have a tendency to browbeat others. You have an almost religious zeal when it comes to convincing others about what is right and what is wrong.

You may even see yourself as a fighter for justice, and whereas this ability to fight for a cause can be very useful under some circumstances, it can also lead to tiring conflicts and disagreements with superiors. Obviously, a job which utilises your energy, enthusiasms and deep convictions would be the best channel for your ebullient energy.

#### PERSONAL - DRIVES: Ebullience

You may well be an exciting person to be with because of your sharp intellect, optimistic nature and sense of fun. If you are a man, you will enjoy the company of your own sex, and be engaged in many activities, perhaps connected with sport or travel. You can excel in mental sparring contests and the thrill of debate. However there may be a tendency to pontificate, or generally make your opinions known in a rather dominating manner. Knowledge and understanding are strong motivating factors for you, so you like to sharpen your mind with discussion and involve yourself in cultural interests.

Women with this aspect are attracted to intelligent men, and often have attachments to foreigners. The most important motivation factor when choosing a man is his ability to expand her mental horizons - either through religious, political, philosophical or cultural interests. An intellectual watershed arises in the relationship, where the man is no longer able to satisfy the intellectual hunger of the woman. How this issue is dealt with is critical for the success of the relationship. The most important thing for both sexes is to take personal responsibility for ensuring constant intellectual or philosophical expansion and personal growth. Relationships would improve dramatically, if you were able to admit that sometimes you are wrong.

#### SEX & POWER - DRIVES: Ebullience

Male mentor figures have played an important role in the development of your intellect. If you had brothers, there will have been a lot of mental competition, and you may have felt that you had to struggle constantly to be able to assert yourself in comparison to them. Or alternatively your father may have been a very dominating man with strong opinions. At best this will have provided you with a very stimulating intellectual environment - at worst he will have been moralising, with a tendency to hold long monologues about what he believed in. He may have manifested strong convictions about justice and right and wrong. You too will have developed great sensitivity about injustice, and later on in life this can give you a tendency to feel a kind of righteous indignation when you perceive unfairness.

Women with this aspect like to have a man who can match her on a mental level - but ultimately he will not be able to, because she is the one who developed the intellectual muscles through the challenges of childhood. As a woman you will be extremely sensitive to men insisting on being right, and you will challenge their views. However this is a projection mechanism which wastes your energy, and ends up making the man lose his dignity. You have a strong sexuality, and can experience great fulfilment through the sexual act. Other things being equal you have a healthy and fun-loving attitude towards sex. However you do need to have an intellectual respect for your partner, before you feel erotically attracted. Men with this aspect may be rather too demanding - even greedy - as regards sex, and under certain circumstances this leads to promiscuity. As a woman you will also have a strong sexual appetite, but sometimes unconscious projection mechanisms give you the impression that it is the man who is sexually demanding. Experience will show that this is not the case.

## Mars Square Uranus

This aspect is extremely powerful in your horoscope; it will dominate many areas of your life.

In your chart there is disharmony between these two planetary influences, and this will be reflected by many struggles both within your mind, and out in the world.

#### PROFESSIONAL - DRIVE: Experimentation

You are an extremely dynamic person and you can perform tasks in a flurry of activity in half the time ordinary mortals take. You need excitement and originality in your work, and you do your best work when a deadline is threatening. When you decide to act, you strike like lightning. However you are best at working in short bursts of energy. Longer periods of activity tire and bore you. You have talent for working with technical matters - for example engineering, computers etc. You may also have a taste for more untraditional work, perhaps connected with New Age fields, consciousness-raising etc. The essential ingredient is freedom to experiment and learn from your own experiences. You are not very good at working in a team because you can react violently to being told what to do. You hate restrictions and orders and you need to go your own way. Other people may experience you as rebellious and you have a tendency to get into trouble with authorities. You are something of a pioneer, and may embark on dangerous travels to foreign lands.

#### PERSONAL - DRIVE: Experimentation

You are an extremely unpredictable person, and your fear of being limited by relationships makes you demonstratively aggressive when duty is required of you. Men with this aspect give their partner the impression that they can pack their bag and go at any time - in actual fact unpredictability is used as a threat to get their own way. Women with this aspect are attracted to unusual men, particularly from abroad or from some unique environment, - men who can promise excitement and freedom. There is a tendency to be enormously provocative and this can lead to explosive conflicts. This satisfies the ever-present craving for excitement in one way or another. To have peace in a relationship it is important to have some unusual interest or job which brings challenge and fulfilment. A relationship will not provide this in any lasting way. If all goes well you are an exciting person to be with, always willing to take a risk or try something new.

#### SEX & POWER - DRIVE: Experimentation

An untraditional father or brother will have evoked strong ideals of independence and freedom in you. You long for the open horizon and the unpredictable. This may relate to an atmosphere of tension in your home, where you felt - and feared - sudden changes or threats from males. The atmosphere was overcharged in some way. Actually you are born with an innate need to manifest your will in a dramatic way, and it will have been very difficult for your parents to control you. You will have experienced discipline as an unjust attack on your personal integrity, and this makes you even more provocative. With this attitude you will come into a spiral of conflict with authority. You don't want to learn from their experience, you want to learn from your own. If you can understand these rather hidden provocation patterns, you can learn to get on with others, even though you do go your own way. You do not have to be such an outsider. In sexual matters you also have a taste for excitement. Not for you every Saturday when the children are in bed - unless there is an element of unpredictability you can quickly lose interest. Although sex manuals talk of the need for a long period of foreplay, this can actually be tedious for you - with your strong sexual magnetism, why wait?. There may be an interests in

advanced sexual techniques and instruments of pleasure. Periods without sex create a strong sexual tension, and there is a tendency for the male to have premature orgasm because of a high level of expectation. Sex for you needs to be a surprise, and it can take place anywhere. The people who established the 5 mile high club probably had Mars/Uranus aspects. In some cases there may be early experiences of danger or the tabu connected with sex, which means you have to recreate a situation of tension to experience release through orgasm. In extreme cases women who have this aspect may be very provocative prior to love-making.

## Mars Conjunction Neptune

This aspect is extremely powerful in your horoscope; every action you take will be coloured by this energy.

This connection between two planets shows a fusion of two principles for good or ill. You integrate quite different energies and express them as one process. This manifests as a strong personal character trait.

### PROFESSIONAL - DRIVE: Refine your desires

Learning to be motivated and being able to define what you really want to do is one of the greatest challenges for you. You have many talents, especially on the creative side, and these can express themselves in advertising and marketing, matters concerning body energies (for example healing and massage), and many other areas - including social care. Paradoxically you have high ideals, yet may get involved in ethically questionable ventures. You can be driven by a nagging dissatisfaction connected with the meaning of what you are doing, and you thrive best when you work creatively or for a cause which transcends material interests. Doing something you believe in is what motivates you. You have strong socialist impulses.

There is an extraordinarily repetitive theme about being cheated which can affect your working conditions. You will experience on occasions that people go behind your back or over your head - seemingly without any explanation. This is connected with your perfectionism and a tendency to express dissatisfaction. People hide things from you partially to avoid experiencing your disappointment. If you analyse your own behaviour you will discover that you also have a tendency to hide things from others! By being honest and accepting apparent imperfections, you can avoid unpleasant repetition of these happenings. It is also important for you to speak your mind and take a confrontation when it arises, to clear the air.

### PERSONAL - DRIVE: Refine your desires

There is no doubt that moral issues are a big challenge for you in your life. Early experiences may have inclined you to be wary of acting spontaneously and openly, and this can give rise to great misunderstandings and often deceit in relationships. Women with this aspect will often find themselves getting attracted to men who disappoint them, perhaps through lying or being unfaithful, or through alcohol misuse. Men have problems regulating their material and sexual appetites.

Women are attracted to creative, artistic or spiritual men, who fulfil their inner need to also develop these qualities. Whilst falling for a sensitive man however, there is paradoxically a fear of weaknesses in the male. An exaggerated focus on these supposed weaknesses and a fear of being lied to by the man actually causes the man to conceal his true desires and needs.

This can result - in extreme cases - in a double life. The man with this influence cannot find satisfaction in simple material and sexual gratification, no matter how hard he tries - and he tries hard. Happiness comes when both sexes learn that satisfaction is only to be found in creative or spiritual goals - partnership will not

in itself provide it. Dissatisfaction has to be seen as a divine discontent which drives the person to higher achievements.

### SEX & POWER - DRIVE: Refine your desires

This influence evokes a feeling of vulnerability and satisfaction in both the man and the woman. In childhood you will have been witness to weakness and despair in either the father or a brother. Your father will probably have initiated you into his fears and disappointments, you may have experienced him in tears, or drunk, or confessing sexual unhappiness. As a result you have developed a genuine concern, but at the same time you wish to avoid getting involved with anyone who exhibits similar failings. You are both repulsed by weakness, and attracted to it, because on the deepest level you know that it exists within you.

Women unconsciously project their fears in this respect on men, and every sign of weakness in the man will activate the anxiety connected with childhood. Everything becomes a test for the man and he is doomed to fail. Often the woman will choose a man who has inherent flaws in his character, but even the man without so many flaws will start to exhibit them. At first, however, there is a tendency to over-idealise the man, refusing to see any weaknesses. As early romantic love fades, weaknesses become apparent, and there is a feeling that the man has changed character, although of course he has just reverted to being himself.

The battleground for men is in the fulfilment of desires. Often there is a weakness for alcohol or drugs and sexual escapades - it is as if one is striving to be seduced by life. In the last analysis the test is a spiritual one - ultimately one learns how transient the fulfilment of desire is.

The desire for sexual gratification is powerful, yet in some ways unreachable. There is a strong tendency to be unfaithful, and this is connected with the unrequited dream for sexual satisfaction. Routine sex quickly results in boredom - there is a need for magic, romance, wine and the spirit of seduction.

Women will often experience male partners being unfaithful - in some cases with parallel relationships which continue secretly for many years. There is a subtle reason for this and it can be avoided. First of all there is a tendency to be very considerate on a sexual level, and this can result in having sex, when you do not really want it. This may mean regular sex without the erotic spark. The man will feel that he is not really satisfying the woman and will tend to seek sex elsewhere. The answer to this is of course only to have sex when you really want it, and to ensure the right seductive atmosphere. Erotic fantasies play an important role with this planetary influence, too, so it pays to share them.

Unfaithfulness in this case starts with isolation during the actual sex act.

For the man, sexuality can be almost a plague - the search for the ultimate orgasm. Actually the whole point of this influence is to learn to refine sexual impulses. There can be great healing talents and unusual physical abilities - particularly as regards yoga, T'ai Chi, physiotherapy etc. - when this lesson is learned.

## Mars Sextile Pluto

This aspect is of medium strength and its influence will often be felt, though not acutely.

The sextile aspect is favourable, and stimulates your capacity to learn from experience. You can expect the negative effects to be minimal.

### PROFESSIONAL - DRIVE: Cutting through decay

This influence has a major effect on your career. In your life you are confronted with the issue of power - and powerlessness. You may not be aware of how forceful you are, and therefore you often encounter confrontations and get involved in power battles.

Your strength in this area equips you to deal with crisis situations which other people would rather avoid. Thus you can get involved politically or socially, perhaps in trade union activity or in the corridors of power. Although you have a lot of abilities in this respect you may not find great satisfaction in these areas. You have a good deal of psychological talent, and may find fulfilment in helping people in crisis, or people who have adjustment problems. You may have psychic or healing talents.

You work hard and very intensely, often into the late hours, and actually you may have difficulty knowing when to stop. It is important to identify this obsessive quality, otherwise you can drive yourself to collapse. By structuring your working hours, you can avoid exhaustion. Life would be easier for you if you were more relaxed. You are very sensitive to what you consider the misuse of power - this is connected with humiliating situations connected with will and power in childhood. Later in life you run into similar situations, especially with authoritarian or dominating - even tyrannical - men, and you tend to overreact. This leads to battles of the will which are quite exhausting - even more for others than yourself. These situations are best defused by seeing them in a different light. By clearly showing others the limits you are prepared to accept, and by sticking to them diplomatically, you can win respect and avoid power games. Remember, if your motives are straight, you will attract people who will be straight with you. It is important for you to think positively about others. You are a powerful ally and a dangerous enemy.

**PERSONAL - DRIVE: Cutting through decay**

You have experienced a number of deep traumas in your childhood through events which may be secret or repressed. This can be linked to the influence of men - particular your father or a brother. Often a stepfather or half-brother plays an important role. Sometimes a sexual theme is involved. You may also have been deeply affected by someone who had a deep psychological problem. In some way your will was totally overridden at some point in your childhood, and you are profoundly affected by the humiliation this incurred. It is also possible that you experienced your father - who was dominating, but weak - being humiliated in some way.

Later on, intimate relationships are characterised by great intensity and power games. There is a need for a strong partner who can stand up and fight his or her own battles. Women with this aspect are profoundly attracted to magnetic and powerful men. Such a relationship develops predictably: where the man initially starts as the dominating figure, the woman begins to discover weaknesses as time goes by, and in doing so loses respect. When the relationship ends, the roles have been reversed and the man often ends up in a humiliating position. Men put too much focus on sexuality and the need to demonstrate masculinity. Jealousy and control can be dominating, though concealed, factors in love. The relationship tends to be marred by criticism of weaknesses and bitter discussions over influence. Often therapy can solve difficulties connected with the complex psychological projections involved in this kind of relationship. As time goes by you will discover the benefits of your enormous energy resources and latent power. As a result you stop struggling against imagined power misuse, and simply no longer feel threatened. Deep satisfaction comes from discovering psychological and psychic talents.

**SEX & POWER - DRIVE: Cutting through decay**

Sexual relationships are an important battlefield for you. The man with this aspect will often demand sex several times a day - or alternatively cultivate an incredible sexual control - and strangely enough this is more because of a need to prove something to himself, than because of true desire. There is a kind of mechanical perfection with the sex act, and a deep obsession

with sexual desire and taboos. The man's partner will naturally enough find these demands exhausting, and feel that tenderness is lacking.

For a woman, the fear of being powerless makes it extremely difficult for her to surrender to the pleasures of sex. This can lead her to take the initiative in sexual matters, yet paradoxically there will be a secret desire to be rendered totally helpless by a masterful lover.

There is a deep need to have a spiritually transforming sexual relationship. This may be possible through some kind of tantric sexual practice, but ultimately happiness in this area is based on a restraint which allows sexual energy to build up over a period of time, and the ability to enjoy passively and surrender.

## **Mars Semisquare N. Node, Mars Sesquisquare S. Node**

You will often feel the influence of this aspect, though stronger influences may predominate in other areas of your chart.

You can expect this influence to be hidden and sporadic in its effect - which is negative, especially as concerned social issues, and issues of self-worth.

**PROFESSIONAL - DESTINY: Survival of the fittest**

You will often find yourself in the midst of the fray in your professional life, with many struggles as regards asserting yourself in groups. Conflict will touch your life in a central way, and no matter what you do you cannot escape the leadership role which puts you in the forefront. You may find yourself involved in a dynamic co-operative venture involving men and a strong element of competition, though achieving harmony or a unified goal may be an elusive quest.

**PERSONAL - DESTINY: Survival of the fittest**

You can portray the essence of masculinity or dynamism in your nature, probably as a result of hard-won battles at key points in your life. This may mean that you are pushy or aggressive in your social relationships, with little regard for opposition, though you may try to choose a life in which you shun confrontation. Coming to terms with the power of sexuality - its pleasures and obsessive quality - is a major life challenge. Dealing with conflict is also a lifelong dilemma for you, as you are denied the opportunity of indulging your weaknesses, and are forced to seek a position of strength in your dealings with others.

## Wisdom

### **Jupiter In Virgo**

**PROFESSIONAL - WISDOM: Master the details**

The concept of service may be an important principle for you, and you are motivated to work hard and very conscientiously, without insisting on personal recognition. Professionally you have administrative talents, and a capacity for grasping a vast amount of detail, whilst still seeing the major issues. To achieve success you need to be specific about the details in your life, without losing the overall view of where you are going. By writing your goals down, specifying precisely what you want, and by replacing a tendency to worry with a policy of only cultivating positive thoughts, you can create fertile conditions for prosperity. A major talent is your ability to delegate and get working relationships to function smoothly, without demanding personal glory. To derive the optimum from your working life it is important to avoid being bureaucratic.

**PERSONAL - WISDOM: Master the details**

At the time of your birth there was a collective theme concerning

national health issues, international rescue and aid actions, refugees, and employment conditions. You too will be motivated by the desire and ability to be of help to other people, so in personal relationships you are often on hand to share the burden. You may be overhelpful however, and this can mean you simply get submerged in duties. There is also a strong perfectionism, which can mean that you get bogged down in specific tasks. You may have a particularly gifted insight into matters of health and healing, perhaps because of your own sensitivity in this area. Awareness and understanding of environmental influences on health and well-being will contribute to this insight, and you may have strong opinions about how to rectify faults in these areas.

## Jupiter In 7th House

**PROFESSIONAL - WISDOM:** Relationship rewards

One of your greatest professional assets is your insight into other people. You have excellent judgement and would succeed in a career in which people came to you for advice. You thrive when working in large concerns, and in a career which offers wide horizons. You are often helped on your way by older people who are favourably disposed towards you, and are generally fortunate in all partnership affairs. Generally speaking you choose to see the best in other people, and this attitude brings out the best in them. You are excellent at motivating people as regards the future, and this positive attitude evokes optimism in them. You have considerable diplomatic talents which are best used on a collective level where the ability to have an overall perspective is the essential ingredient.

**PERSONAL - WISDOM:** Relationship rewards

Other things being equal you have a very fortunate fate in relationships. Marriage will often bring social and material advancement for you, and you are usually lucky in finding a person who helps you and has your best interests at heart. The most important asset a partner can possess in your eyes is an intelligent and cultured manner. A wise partner imbues your life with meaning and expands your philosophical horizons. You are stimulated by a good discussion, but must take care that you do not fall out with your partner on foolish matters of principle. Differing opinions tend to sabotage your harmony. Your partner may have special political or religious interests, or may come from another country. You can have great pleasure from travelling together and cultivating your shared cultural interests.

## Jupiter Square Saturn

It may be difficult for you to discern the influence of this combination of planetary energies as it is not a strong configuration in your chart.

As there is tension between these two planetary influences in your chart, it will be very difficult for you to achieve the promised beneficial results before the age of 30.

**PROFESSIONAL - WISDOM:** Cultural values

You have the capacity to attain a meaningful and powerful position in society. Having the ability to sense the right time, and be in the right place, you know how to take advantage of professional trends to create expansive conditions for professional growth. If all goes well you can consolidate your position after a period of expansion, and from this new foundation go on to create further growth. The main issue as regard success is the ability to have faith in the future and act on it. Periodically you may be overwhelmed by pessimism and lack of confidence. At these times the future can seem dark indeed. At other times you can be overoptimistic as regards future possibilities, and fail through lack of judgement or preparation. Courses which train your ability to plan, combined with training positive thinking, will greatly benefit you. You can work in central positions in organisations because you inspire the feeling of stability and trust. You may have a talent for planning, consultancy and organisation - and you have the capacity to create structures in society which bring lasting benefit.

**PERSONAL - WISDOM:** Cultural values

When this influence manifests positively you can create an environment around you full of confidence and certainty about the future. In difficult circumstances however, you can feel great despair as regards what the future will bring for you. This is especially strong in respect to your need to fulfil the expectations of society and those closest to you. Your moods tend to swing from optimism to pessimism. You are especially concerned as to whether you have the necessary training or experience to realise your ambitions. Obviously you will benefit from training courses to increase your skills, but you still have to struggle with nagging doubts regarding your competence and intelligence. It is precisely this insecurity which leads to great personal development as you constantly strive to gain insight and understanding. You can have rather dominating opinions, and it is worth asking yourself whether they truly are your own opinions. You often allow your views to be swayed by parental convictions or current opinion. However you tend to mature like a good wine in this area, and your own ideas may end up having a major influence on your environment.

**COLLECTIVE - WISDOM:** Cultural values

Saturn and Jupiter are the giants of the solar system, each with their own systems of moons. As Saturn's orbit of the Sun takes nearly 30 years, and Jupiter's 12 years, they meet precisely every 20 years. This cycle is reflected by vast structural readjustments in society, inaugurating new periods of hope and growth. Every fifth American president is elected under this influence, the last two being Ronald Reagan, and John F. Kennedy. The principle idea of this planetary aspect-cycle is initiating and building on new ideas and concepts about the future. As this influence can last up to a year, everyone born in this period will play a role in realising a future vision of structural growth in society, and some individuals will personalise the influence to become pillars of this new society. Ideas about banking and finance, building and construction, teaching and education, foreign and domestic policy, the rule of the law etc., will all be formulated, developed, run into trouble or bear fruit, during the different aspect phases. As Jupiter represents a new vision of the future, as well as justice and the law, whilst Saturn represents the executive, tradition and the structure of society, the interaction of these planets brings upheaval and adjustment on every level, as the past collides with the future.

## Jupiter Sextile Neptune

This aspect is extremely powerful in your horoscope, and will be a major feature of your character.

The sextile aspect is favourable, and stimulates your capacity to learn from experience. You can expect the negative effects to be minimal.

### PROFESSIONAL - WISDOM: Expansive dreams

As these planets are relatively slow-moving their influence is felt most on a collective level. Insofar as you channel their influence in your profession you will wish to work on the collective effect of knowledge, the intellect and social influence. There may be a talent for marketing or advertising or selling a dream or vision. There can also be a drive to evangelise on a social, religious or political level. You can be strongly motivated by altruistic ideals and identify with some kind of vision or dream that transcends your own dreams. On a more down to earth level there can be a talents for dealing with oil and related products - particularly plastics. There may also be an interest in oceans, the film industry and anything which enchants on a collective level. You can be hopelessly overoptimistic - heed realistic advice!

### PERSONAL - WISDOM: Expansive dreams

This influence shows that you can be moved by dreams and visions. There will be some aspect of your life in which you are touched by something magic that completely transcends your everyday life. This can bring great happiness, if you choose to cultivate your intellectual drive towards greater spiritual understanding through creative, artistic or meditative interests. At the same time there may be a total lack of grounding, or a tendency to be completely absorbed by unrealistic ideas. There are dreamers of dreams who achieve nothing, and weavers of dreams, who can bring visions down to earth. Ultimately people will be disappointed in you, if you are the former. You have the capacity to make faith and hope guiding lights for your actions.

### COLLECTIVE - WISDOM: Expansive dreams

As Jupiter takes 12 years to go around the Sun and Neptune 165 years, the two planets meet in a conjunction cycle every 13 years. It is a time of spiritual progress. At this time humanity is gripped by great hopes concerned with an ideal future of some sort. People work to achieve Utopia - and though as a rule disillusion comes, there will be a period when people are joined in unselfish love for a shared ideal. This is a time when the bubble expands, when optimism exceeds all bounds, when the balloon rises to the greatest heights. Before everything comes down to earth again the human soul is enriched and touched by the divine. Intangible things become tangible in a magical way - there can be a special emphasis on music, art and the media.

## Jupiter Conjunction Pluto

This aspect is extremely powerful in your horoscope; it will dominate many areas of your life.

This conjunction shows a fusion of energies in you. Both the positive and negative sides of this aspect will be an integral part of your character.

### PROFESSIONAL - WISDOM: Transformation of beliefs

This influence is often felt more collectively than personally. This is a combination that shows power in one form or another: big money, the power of ideology, the law. You will have very strong convictions and a intense sense of justice, and as such will often find yourself getting involved in issues connected with beliefs, righteousness, power and the misuse of power - especially as far as large organisations are concerned. Success comes when you encourage tolerance in yourself, and flexibility concerning your

views, thereby overcome a tendency to be unreceptive to the opinions of others. Systems of positive thinking can transform your life.

### PERSONAL - WISDOM: Transformation of beliefs

Your beliefs will undergo a profound transformation during the course of your life. It is important for you to bear this in mind, as you often defend your convictions with an compulsive persuasiveness which can be dominating in personal relationships. You may be aware of an obsessive need to be right, or a consuming hunger to acquire insight, and this can be rather exhausting for those closely involved with you. By resisting the temptation to impose your beliefs on your partner, and by being open and curious about other people's opinions, you can attain harmony. You will certainly develop considerable psychological insight in your life, and this may benefit you both privately and professionally.

### COLLECTIVE - WISDOM: Transformation of beliefs

Jupiter orbits the Sun every 12 years, whilst Pluto takes 246 years. Consequently Jupiter catches up with Pluto approximately every 13th year and. After 6« years, Jupiter is in opposition to Pluto, and every 3 years Jupiter is square Pluto. This planetary cycle is reflected in events which affect the world on a global scale. But if you have an aspect between these two planets in your birth horoscope, your personal efforts can be very significant in carrying out collective transformations. You will often experience major change at the conjunction, square and opposition - at these times you will discover what your destiny is in relation to this planetary cycle and society.

This 13 year cycle show the ebb and flow of ideological and financial power. Mass changes of consciousness occur at the start of each new cycle inaugurating new collective beliefs. There will often be enormous ideological power battles in society. Jupiter/Pluto shows the disproportionate power exerted by small secret groups, for good or ill.

## Jupiter Square MC

It may be difficult for you to discern the influence of this combination of planetary energies as it is not a strong configuration in your chart.

As there is tension between these two planetary influences in your chart, it will be very difficult for you to achieve the promised beneficial results before the age of 30.

### PROFESSIONAL - GOALS: Counsellor

Your foresight and understanding are important assets in your career. You can work in an advisory capacity, and may function well in areas concerned with publishing, travel, law or international affairs. Superiors tend to support you and ensure your promotion. Your chief weakness is a tendency to overestimate your own importance, and to foist your own views on colleagues. You need meaningful goals, and when you follow them you are destined for success.

### PERSONAL - GOALS: Counsellor

Fortune smiles on you in family and professional matters. Your upbringing was probably quite enlightened, and many of the strong views and convictions you have stem from the example of your parents early in life. You want to achieve a position of importance in your community. You appreciate space around you in your home environment. You may have a tendency to be showy, and when it comes to property, this can be expensive.

It may be difficult for you to discern the influence of this combination of planetary energies as it is not a strong configuration in your chart.

Please bear in mind that the contact between these planets is harmonious, which means that you will rarely be troubled by their negative influences. They represent a resource you can draw from.

**PROFESSIONAL - SELF-RELIANCE:** Structural renewal

This rare combination of planets is part of a 46-year cycle, and the influence will affect everyone over a period of approximately a year. In so far as you channel this influence through your career you have the capacity to deal with large organisations and will often find yourself in the position of establishing a bridge from the old to the new. With one foot in tradition and the established values of collective experience, you will also have to deal with the necessity of reform to adjust to a new future. Depending on which side of this equation you are on, there can be conflict with established authorities. Thus you will often be confronted by two separate and very different camps with very different viewpoints. You deal with social structures which have outlived their usefulness; perhaps a revolution is necessary to make room for the future. You can be skilled at finding ways of putting new technology to practical use. You can work in areas concerned with social reform.

**PERSONAL - SELF-RELIANCE:** Structural renewal

Your personal struggle is very much connected with when to release your attachment to the past and open yourself and your life to the necessity of change. Often you hang on to restrictive life-patterns too long, and when sudden change comes - as it invariably does - the edifice you have built up can disintegrate as you uncompromisingly embark on a completely new venture. You tread the tightrope between generations and have the capacity to bridge the gap between young and old. Sometimes you identify with the establishment, yet there will come decisive breaks as you violently strive to adjust to change. You have a role in society in which you should bear the banner of reform.

**COLLECTIVE - SELF-RELIANCE:** Structural renewal

As Saturn takes a little under 30 years to orbit the Sun, and Uranus 84 years, these two planets meet in a conjunction cycle every 46 years. Saturn represents the forces of the past and the establishment, and Uranus the force of the future. Needless to say, this is an uncomfortable meeting which tends to bring violent

upheaval in the world. In mythology, Saturn, who never was very keen on change, castrated Uranus. There was a conjunction in 1942 during World War II, and in 1988 which marked the beginning of the end for the Soviet Union and Eastern Europe. This combination shows the degree of integration of reform in society, and, depending on the kind of aspect, how peaceful this process is. Generally there is a strong polarisation between the old and the young at stressful phases on this cycle - for example during the opposition in 1965, when young people dropped out of established society. The aspect also marks milestones in the practical use of modern technology.

### Saturn Square Pluto

This aspect is of medium strength and its influence will often be felt, though not acutely.

There will be great difficulty in integrating these two planetary influences, and the promised harmonious results will only arise after you have expended time and effort.

**PROFESSIONAL - SELF-RELIANCE:** Re-evaluate personal power

Normally this influence is felt more collectively than personally. The main issue here is the structure of power - its use and misuse. In your life you are sure to encounter people and organisations who have a powerful position in society, for good or ill. This can for example include the police, tax authorities, corporations or secret organisations. When this influence becomes strong in your life, you will find yourself in a position which requires enormous willpower. This can lead to the overthrow of powerful people, or the collapse and restructuring of powerful institutions. It is your mission to transform the unacceptable use of authority. You also have the capacity to wield power and in doing so reform organisations.

**PERSONAL - SELF-RELIANCE:** Re-evaluate personal power

You can both be a victim of tyranny, and a person who unconsciously adopts an authoritarian style yourself. The energy you invested in survival early in your life can give you an imposing and even frightening aura. You have to make sure therefore that you use your natural authority to empower rather than weaken others. In intimate relationships you are extremely sensitive to the misuse of power and any sense of helplessness. If you unconsciously overreact in this area it may be you yourself who evokes fear in your partner. In times of crisis you may use the threat of allowing your life structure to disintegrate totally to keep your partner in line. Do not be afraid to be gentle and tender.

**COLLECTIVE - SELF-RELIANCE:** Re-evaluate personal power

Saturn orbits the Sun every 29½ years, and Pluto takes 246 years. Therefore Saturn overtakes Pluto every 35 years. Politically this cycle often leads to the restructuring or the painful birth of nations. The conjunction took place in 1914, 1947 and 1982. The first two dates saw the beginning of World War 1, and then the birth of Israel, Pakistan, India (the fall of British colonial power), and, a little later, Communist China. 1982 was the beginning of the disintegration of Lebanon and the nuclear stand-off between USA and the Soviet Union in Europe.

The key issues here are colossal power confrontation with ideologies strongly at variance. Politically there is no way around power battles. Old structures experience their death-throes as they outlive their usefulness. Organisations are stripped to their bare bones. Only by profound surgical cut-backs can new growth take place. Major turning points in this 35-year cycle will take place at approximately 9 year intervals.

When you are born under this planetary phase, it can be your destiny to live out the collective idea, by working intensely on

restructuring processes in society.

### Uranus Square Neptune

This aspect is of medium strength and its influence will often be felt, though not acutely.

There will be great difficulty in integrating these two planetary influences, and the promised harmonious results will only arise after you have expended time and effort.

PROFESSIONAL - ORIGINALITY: Spiritual revolution

This long-lasting aspect will be shared by everyone born in any particular 4-year period, but if you express its influence in your career you will be able to channel a talent for working with the electronic media on one level, or personal consciousness on another. There is an electric idealism with this aspect and very little grounding. Some people may be able to tune into latent telepathic and clairvoyant powers, and use them in their job. Contact with international companies which have strong cross-border communications brings good fortune. Work with advanced technology, especially connected with instantaneous communication is another possibility. There is an inbuilt tension between the principles of freedom and service which can be expressed in irrational political and social convictions.

PERSONAL - ORIGINALITY: Spiritual revolution

This aspect has an influence on a particular generation, but you may personally feel and express its power through an interest in aspects of human consciousness which are on a very subtle level. This can relate to the power of dreams, clairvoyance etc. - in fact the whole spectrum of the New Age movement. If personal planets also aspect these distant planetary giants, you will feel a deep longing to transcend yourself through some kind of spiritual interest. Drastic changes will occur in the pursuit of your dream, and you may be willing to abandon the secure structures you have built up to follow your ideals. Needless to say you will often be disappointed, but the whole process enhances your

awareness and spiritual consciousness. You can be deluded by the allure of charismatic personalities - take care.

COLLECTIVE - ORIGINALITY: Spiritual revolution

These two planets conjoin once every 172 years, so aspects between them are rather rare. There was a trine during World War II, and a square in the mid-fifties. Most recently they were in conjunction in 1993 for the first time since 1821. As Neptune was only discovered in 1846 this last conjunction is the first to take place with the knowledge - and after Voyager 2's flypast - participation of humanity. This aspect brings deep-seated change to the consciousness of humanity. On one level the advanced technology of the period transcends border and race to join all nations together. Global communication warps and undermines accepted notions of time and space. Revolutionary change comes to governments as they integrate the very disparate need to be individual and independent with the need to belong to a greater whole. This signals a growth period for electromagnetic energy and the media, as well as all forms of electronic communication. On an inner level there is a spiritual revolution, with the flowering of esoteric interests.

### Uranus Sesquisquare N. Node, Uranus Semisquare S. Node

This aspect is extremely powerful in your horoscope; it will dominate many areas of your life.

The influence of this aspect is deeply unconscious and sporadic, though when felt it can manifest itself in uncompromising conflict with others.

PROFESSIONAL - DESTINY: The lightning rod

Exciting things happen around you, wherever you are, and you are destined to galvanise into action the groups and organisations you are involved with. You are a force for renewal in those situations that have ground to a halt, and you can channel a message of inspiration or revolution. On the other hand, you tend to light the bomb and walk away, often being seduced by the idea of change for its own sake, and rarely having the ability to handle the consequences. There may be an element of extremism in your nature, and an attraction to extremist groups, or to people on the fringes of society.

PERSONAL - DESTINY: The lightning rod

You are possessed of a magnetic aura which can be very inspiring for the people who meet you. Nevertheless you are also an upsetting influence, so that although people may look to you for inspiration, they may feel a certain discomfort in the long run. Indeed it is your fate to be something of a provocateur - you do not believe in people getting too comfortable. You are a force for change, and may have a particular ability for New Age interests, dealing with subtle energies etc. Dramatic consciousness change at intervals in your life can sweep the ground from beneath your feet and carry you off with your head in the clouds.

### Uranus Trine MC

Though not especially strong, you will be able to feel the influence of this aspect under many circumstances.

Please bear in mind that the contact between these planets is harmonious, which means that you will rarely be troubled by their negative influences. They represent a resource you can draw from.

PROFESSIONAL - GOALS: Radical goals

Strange and sudden changes of direction can sweep you from one career to another, until you gravitate towards a job which satisfies your need for excitement and unconventionality. You

have a talent for consciousness-raising matters, but there may also be technical interests, or a fascination with exotic lands or cultures. Your relationship to authorities can be rather strained, as you hate being categorised or ordered about. Your independence is very dear to you.

#### PERSONAL - GOALS: Radical goals

Unusual circumstances connected with your parents or your childhood have stimulated an interest in an unorthodox career or family life-style. You may be attracted to a form of communal existence, or you may choose to settle in an unusual environment. The urge for excitement descends on you unexpectedly at intervals in your life, and at these times you can enact radical career or domestic changes.

## Transcendence

### Neptune In Libra

COLLECTIVE - TRANSCENDENCE: Cosmic balance  
Neptune takes 165 years to orbit the Sun, and approximately 14 years to go through one sign. Its influence affects a whole generation, and is associated with a new sensory and spiritual awareness, and greater compassion, in connection with the sign it is in. For most people this influence is experienced on a collective level, but those who have their Ascendant in Pisces will express it in a personal way in their lives.

Neptune was in Libra from 1778 to 1793, and again from 1942 to 1955. There was an especial concern with justice and equal rights in these periods, with a strong idealism concerning equality before the law, and between the sexes. There was a strong tendency to over-idealise partnership in the media, whilst the institution of marriage was undermined in public life. Politically there is a strong emphasis on the balance of power, with grotesque distortion of opposing factions.

If you channel this collective influence in a personal way, you will have many unrealistic ideals about love combined with great hopes for happiness in relationships. You will however be profoundly influenced by the dissolution of relationships around you, and a need will arise to redefine the importance of partnerships in your own life. You may however have a very refined talent for dealing with other people, partly because you have a compassionate nature and genuine interest in others. You believe in being on an equal level with others.

### Neptune In 8th House

PROFESSIONAL - TRANSCENDENCE: Sublimating desire  
You are rarely attracted by professions which promise long-term economic guarantees and job security. At some point in your life you may receive welfare or social security payments, and this will change your values as regards economic security. Your values are more spiritual than material and you become disillusioned at an early age by the manifestations of power and greed in society. You have an unusually deep appreciation of the unconscious needs which motivate other people's behaviour and you function extremely well when you can harness your intuitive powers and your need to be of service to others on an emotional, spiritual or psychological level. You have a talent for working with dreams, healing, art therapy or visualisation.

#### PERSONAL - TRANSCENDENCE: Sublimating desire

You have a deep longing for a perfect intimacy in which you can lose yourself and merge with your partner. On a sexual level you may long for release through the "perfect" orgasm, and early experiences may have aroused a longing in you for total transcendence through love or sexuality. You will learn that

human relationships cannot and will not provide you with emotional succour of this nature over an extended period of time. Furthermore your partner will feel more and more helpless - even to the point of seeking personal confirmation elsewhere - because he or she senses that you are not fulfilled. By eliminating unrealistic expectations you free yourself from the prison of your dreams. You can only realise your longings if you embark on an inner spiritual journey. Meditation, dreams, tantric sexual practices or the discovery of mystical talents can satisfy your spiritual hunger.

This aspect is extremely powerful in your horoscope; it will dominate many areas of your life.

When reading the following description, please bear in mind that you are a fast learner and overcome any difficulties involved very quickly. You can expect to use this aspect constructively and harmoniously.

#### PROFESSIONAL - TRANSCENDENCE: Mass vision

These aspects are very rare and last a very long time. Indeed, as Pluto moves within the orbit of Neptune in the closing years of the 20th century, the present sextile aspect between the two planets lasts from 1940 to 2040 - one hundred years - so almost everyone has it! If you are able to manifest this influence on a personal and professional level (through powerful contacts in your own horoscope), it may be connected with a deep spirituality and creativity. There can be talent for dealing with the media and wide ranging themes connected with the masses. Material issues will be less important for you than the realisation of a collective dream. There can be clairvoyant powers, and abilities connected with dreams, symbols and visualising. In industry there can be a talent for dealing with oil, the film industry or the transforming power of collective visions.

#### PERSONAL - TRANSCENDENCE: Mass vision

If you have this influence powerfully evoked by other factors in your horoscope, you will be deeply affected by spiritual issues, and constantly seeking to refine your consciousness. At these times you are likely to experience great personal disorientation and confusion, as old dreams and visions are replaced by new, deep psychological insights. Inner growth will have major priority in intimate relationships. During periods of your life you will undergo deep transformations in which your fantasy and imagination will play a powerful role. It is essential to learn to use your imagination in a positive way by learning about the power of the unconscious.

#### COLLECTIVE - TRANSCENDENCE: Mass vision

The Neptune/Pluto planetary cycle is connected with spiritual

evolution on Earth and whole generations share this present harmonious aspect which - lasting as it does from 1940 - 2040 - is connected with a deep spiritual transformation process affecting the whole of human consciousness.

Neptune catches up with Pluto every 492 years, in what can be considered a spiritual seeding period for our planet. New collective ideas emerge at the start of this cycle, evoked by sudden developments of the technology and discoveries of the time. The major conjunctions since the birth of Christ were 411 AD, (disintegration of Roman empire), 904 AD, 1398, and 1891-2. This last conjunction in the sign of Gemini may therefore partly relate to the revolution of transport (flight and automobiles) and communication (radiowaves) which has such immeasurable effects on our consciousness today.

## Transformation

### Pluto In Leo Retrograde

Because of the relative position of this planet in relationship to the Sun and Earth, it appears to be moving backwards. This may make you more thoughtful or introverted in the area concerned.

**COLLECTIVE - TRANSFORMATION:** Individual power Pluto has an irregular orbit around the Sun which takes about 248 years. When Pluto is closest to the Sun it takes only 12 years to traverse a sign. When it is furthest away, it takes approximately 30 years. Its influence is felt collectively on a very deep level in society, bringing trauma, transformation and renewal in regard to the sign it is in. Individuals with their Ascendant in Scorpio may express this influence in a personal way, otherwise its effect is expressed as an underlying influence on a whole generation. Pluto was in Leo from 1693 to 1711, and again from 1939 to 1957. These were times of power politics with charismatic leaders wielding dictatorial power. This was a period in which power was concentrated in the hands of an elite, and when hero-figures played an important formative role on the national psyche. Entertainment became a new force to sway the masses, and a new freedom based on increased leisure put the emphasis on individual development and self-realisation.

If you express this influence in your personal life, you will have a forceful character and charismatic influence on others. You have very strong personal convictions and principles, which you will express in an uncompromising way. Being a natural leader, you resent being bullied by anyone in authority, though you can be rather autocratic yourself. A series of identity crises during the course of your life - perhaps because of events concerning children or love-affairs - will lead to radical changes in direction as you redefine your goals in life and your attitude to personal power.

### Pluto In 7th House

**PROFESSIONAL - TRANSFORMATION:** Meeting the shadow You are inscrutable in your dealings with others, and this can be an advantage when it is important for you to conceal your hand. As you also possess considerable psychological insight, you are good at driving bargains, though there can be a tendency to rely on a show of power rather than working towards a consensus that reflects shared interests. If you feel anxious when relating to others and suspicious of their intentions, and try to compensate through exerting control, you might benefit from developing greater trust and faith in your fellow citizens. Remember, people also feel anxious when relating to you precisely because of the efforts you make to maintain control. Relax. You can help people who feel alienated from society, perhaps by some form of healing or therapy. At your best you can give people the power to totally transform their lives.

**PERSONAL - TRANSFORMATION:** Meeting the shadow You form relationships with passion and intensity, and the erotic element of love will be very important to you - indeed there may be an obsessive quality about it. Because you allow yourself to get totally absorbed by the other, there are times when you feel totally possessed by him or her and without power. There are a number of dangers here. First of all, you tend to deny your own personal power and shadow side, project them on the partner, and thereafter experience the partner as dominating or manipulative. Get wise. If you can integrate your own shadow and your own power, if you can also admit to the ugly sides of your own nature, you relieve your partner from a great burden. In its extreme form you can experience, or even evoke, psychosis or cruel behaviour in the partner. Do not invest everything in your partnership - if too much pressure is exerted, the partner will bow out of the relationship without warning. As you mature you gain great psychological insight through your relationships.

## Destiny

### N. Node In Sagittarius, S. Node In Gemini

**PROFESSIONAL - DESTINY:** The inner guru You enter professional life with a number of good cards in your hand. You have the ability to communicate and a good grasp of facts. On top of this you may have specific talents concerning the nature of the mind and the way it functions. Yet there is a tremendous restlessness and lack of staying power which means that you tend to change direction repeatedly, so that you have difficulty consolidating your achievements. As you mature you develop a strong need to weave all these threads into something more meaningful, and it becomes important for you to develop a life philosophy which puts your ambitions into perspective. An intellectual hunger may bring travel which widens your horizons and opens your mind. Adult education opportunities give you new understanding. International dealings and cultural exchange can also form the backbone of changed career goals.

**PERSONAL - DESTINY:** The inner guru Major issues in your life centre around knowledge, communication and understanding. Early on you are very strongly influenced by the ideas of others, and you spend a lot of time passing on knowledge which comes from intellectual authorities.

In general you are drawn in to a world of gossip which seems to dissipate your mental energy. You meet too many people, are always on your way from one place to another, and generally have difficulty formulating precisely what you stand for. As you get older there is a greater need to allow your own ideas to germinate. Mentor figures - especially from foreign countries - can play an important role in inspiring your new-found intellectual independence. By withdrawing from the enervating energy of the crowd, and by developing latent talents of reflection, you can enrich your life with a meaningful philosophy. It is important for you to expand your spiritual horizons as a counterbalance to the distractions of the world.

### **N. Node In 10th House, S. Node In 4th House**

PROFESSIONAL - DESTINY: Release from family

As you mature your professional ambitions will assume a growing importance for you. Perhaps you feel a sense of destiny as regards career - at any rate you have a role to perform in society which can have significance for other people. You will undoubtedly find that you have to overcome enormous domestic pressures on your journey, but it serves no purpose to allow these pressures to completely dictate the speed of your progress. No one benefits in the long run if you allow family interests to have priority. Your work may give you a high individual profile and as a consequence you develop a strong sense of responsibility and awareness of personal influence.

PERSONAL - DESTINY: Release from family

Parental and family values have a powerful influence on you, and you may feel a strong desire to centre your life around home, family and children at an early age. However these areas can never satisfy you fully. You can only develop when you tear yourself away from the constant distractions of family life and define new goals for yourself. You do your family a favour when you go out into the world and realise yourself. You will often feel split, and you will always be conscious of family needs, but this should not deter you in your search for fulfilment. Family issues will exert a constant pull on you, but being the traditional homebody is not your destiny. It is your influence on the larger world stage that has greatest significance in your life.
